

Dear Solid Waste Stakeholder,

Orange County wants to hear your suggestions to improve the management of the target solid wastes: Construction and Demolition Debris and other Class III wastes. We are developing a community Solid Waste Integrated Resource Plan (SWIRP) and invite you to attend an interactive meeting:

Orange County SWIRP Stakeholder Workshop
Tuesday, May 31, 2011 @ 1:00 - 3:00 p.m.
Orange County Commission Chambers
201 South Rosalind Avenue, Orlando, FL ([directions](#))

You are a stakeholder in this process if you generate, transport, recycle, convert to energy, or dispose of the target waste types. This includes home builders and renovators, container rental and hauling companies, recyclers, transfer stations, and disposal sites. It also indirectly includes home buyers, neighbors of these facilities, recycled material users, and other interested parties concerned about economic, environmental, and quality of life impacts.

This first workshop will include discussions about a Vision, Guiding Principles, and Goals for the community. Although our consultant, HDR Engineering Inc, will present a brief [Summary of the Current Situation](#), please come prepared to discuss how our community can address:

- [Florida Statute 403](#) amendments including the 75% recycling goal for 2020 and a requirement to process C/D Debris for recycling starting 2012;
- Local policies such as the County's [Comprehensive Policy Plan](#) and [Green Government](#) initiative;
- Development of a [sustainable economy and the creation of jobs](#).

Space is limited so please RSVP before May 26 by replying to this email or contacting our event coordinator, Lori Baker, at (352) 406-3730. We look forward to your input and suggestions.

Sincerely,

David Bromfield, P.E.
