# 2022 Prison Rape Elimination Act Annual Report

## History

The Prison Rape Elimination Act (PREA) was established in 2003 by the United States Congress in order to address the problem of sexual abuse and sexual harassment in correctional facilities. The major provisions of the PREA Standards include:

- Adherence to a zero-tolerance policy;
- Development of standards for detection, prevention, reduction, and punishment of prison rape; and
- Collection and dissemination of information involving alleged incidents of sexual harassment or sexual abuse in correctional facilities.

The mission of the Orange County Corrections Department is to ensure alignment with PREA Standards. The department is committed to operating a safe and secure correctional facility, while delivering quality programs and services through dedicated partnerships, to ensure the dignity and respect for the inmates in our custody is maintained.

### Purpose:

Pursuant to Prison Rape Elimination Act Standards, this report serves as an annual review required to assess and improve the effectiveness of the Orange County Corrections Department policies, procedures and training as it relates to sexual abuse prevention, detection and response.

### 115.88 Data Review for Corrective Action

(a) The agency shall review data collected pursuant to PREA Standard 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices and training, including by:

- Identifying problem areas;
- Taking corrective action on an on-going basis; and
- Preparing an annual report of its findings and corrective actions.

(b) Such report shall include a comparison of the current year's data and corrective actions with those from prior years and shall provide an assessment of the agency's progress in addressing sexual abuse.

(c) The agency's report shall be approved by the agency head and made readily available to the public through its website or, if it does not have one, through other means.

## Collected Data

### 2022 Allegations of Sexual Abuse and Sexual Harassment:

The Orange County Corrections Department collects data from reports of sexual abuse and sexual harassment, to include both inmate and staff assailants. All allegations are referred to the PREA Compliance Managers and/or the Internal Affairs Unit to be investigated and the outcome of these investigations is included in the data that is collected and reported.

The following graph indicates a breakdown of the sexual abuse and sexual harassment allegations that were reported from January 1, 2022 to December 31, 2022, which includes a total of thirty-two (32) incidents. (See Attachment "A" Definitions)

2020 - 2022 Total PREA Allegations

## 2022 Prison Rape Elimination Act Annual Report

The following graph compares the total number of reported incidents from 2020 (61), 2021 (56), and 2022 (32) by the type of allegation.

### The Average Daily Population:

2020 = 2341  
2021 = 2377  
2022 = 2357

There continues to be a noteworthy reduction in reported incidents for 2022 in comparison to the previous two years. This is accredited to the Department's commitment to the prevention, detection, and continuous staff education on the PREA standards.

### Incident Findings:

At the conclusion of an investigation, a finding is determined based on the facts of the case. The incident findings as defined in the PREA Standards are as follows:

- Substantiated: The allegation was investigated and determined to have occurred.
- Unsubstantiated: The allegation was investigated and the investigation produced insufficient evidence to make a final determination as to whether or not the event occurred.
- Unfounded: The allegation was investigated and determined not to have occurred.

## 2022 PREA Allegations Outcomes

### 2022 Substantiated Incidents

There were three (3) substantiated allegations in 2022 and all the incidents involved inmate assailants. These allegations included two (2) for abusive sexual contact and one (1) for inmate sexual harassment. There were no identified patterns of abuse regarding location or inmate identifiers.

There were no substantiated allegations of sexual harassment or sexual misconduct involving a staff member in 2022.

### Ongoing Efforts

#### Sexual Abuse Incident Reviews:

The Orange County Corrections Department conducts Incident Reviews on all substantiated or unsubstantiated investigations regarding inmate sexual abuse or staff sexual misconduct, as required by PREA Standard 115.86. These reviews are conducted by a multi-disciplinary team comprised of the appropriate PREA Compliance Manager (Facility Captain), a line supervisor, an Internal Affairs Investigator, Health Services staff and the PREA Coordinator. This review team evaluates the circumstances of each incident and makes recommendations for changes to either policy or practice in order to better prevent, detect, or respond to sexual abuse. The team also evaluates staffing levels at the time of the incident; whether or not the

incident was motivated by any group dynamics; reviews the adequacy of the monitoring technology; and determines if there were physical barriers in the area that enabled the abuse.

The Sexual Abuse Incident reviews that were conducted in 2022, did not indicate patterns or motivations involving abuse. In addition, staffing and monitoring technology were deemed to be both appropriate and adequate.

### Risk Assessment and Screening:

The Department continues to review and enhance the risk assessment process of identifying potentially vulnerable and potentially aggressive inmates in order to keep them separate in general population. The screening process will continue to be monitored so improvements can be made as necessary. This will ensure the information is utilized to keep inmates at high risk of being sexually victimized separated from those at high risk of being sexually abusive, in accordance with the PREA Standards.

### Training and Education:

Training and education are critical components to the prevention of sexual abuse. A computer-based training on PREA is mandatory for all staff to complete on an annual basis and includes information on the Department's zero tolerance policy and staff's responsibilities regarding the prevention, detection, reporting, and response to sexual abuse and sexual harassment. An overview of this information is also provided in the New Employee Orientation, which is mandatory for all newly hired staff. Additional training opportunities will continue to be evaluated, as it is imperative for staff to understand the important role they play in ensuring inmates sexual safety within the Department.

The PREA Coordinator and designated Department staff completed PREA training courses to further educate department personnel on their roles and responsibilities in relation to PREA compliance.

### Improvements and Policy Development:

The Department is undergoing a capital improvement project involving camera and software upgrades. These upgrades will improve camera clarity while monitoring and ensuring inmate dignity via privacy masking throughout the facilities.

The Department continues to focus on policy development and enhancement of procedures for protecting inmates in our custody from sexual abuse and sexual harassment.

### Goals and Objectives:

The Orange County Corrections Department will continue to identify opportunities to provide additional training and education to ensure staff understand their role in protecting inmates from sexual abuse and sexual harassment. In addition, the Department will remain dedicated

to finding ways to enhance our efforts in providing a safe correctional system for inmates committed to our custody.

### Department of Justice PREA Audit

The Department successfully completed its third Department of Justice PREA Audit in September 2023. All standards were successfully met with two (2) standards exceeded.

### Conclusion

In an effort to maintain compliance with the requirements established by the Department of Justice, the Orange County Corrections Department remains firmly committed to adhering to the PREA Standards and making necessary adjustments on a continuous basis.
