Application Form

Introduction & Instructions

Orange County's Tourist Development Tax Grant Application Review Committee Opens Window to accept applications April 1 through April 30, 2024

WHAT:

Orange County's Tourist Development Tax Application Review Committee (ARC) will open its FY-2024 through FY-2028 (October 1, 2024 – September 30, 2028) application funding window for capital grants in excess of \$2 million and up to and including \$15 million on April 1, and will accept applications through April 30, 2024.

The ARC reviews grant applications and makes recommendations to the Tourist Development Council, with the final decision being made by the Orange County Board of County Commissioners. The applications and supporting materials will be accepted through **the United Arts Grants Portal**.

To be considered, qualified applicants must meet the minimum requirements listed below. A complete list of requirements is included with the grant application.

- The capital project grant request should be for a dollar amount in excess of \$2 million and up to and including \$15 million toward a project for the acquisition, construction, expansion, enlargement, renovation, and equipping of eligible facilities.
- The requested project funding must be for one or more fiscal years from October 1, 2024, through September 30, 2028.
- The project must meet the statutory guidelines for the Tourist Development Tax.
- The project must be located entirely within Orange County.

Through a new service agreement, training and application support for applicants will be available through United Arts. There are two initial grant application information sessions for interested organizations.

In addition to attending an information session, applicants are encouraged to **contact United Arts** with questions prior to applying. United Arts Staff will be available for questions until April 29 at 5 p.m. and can be reached via email at **Outreach@UnitedArtsCFL.org** or by calling (407) 628-0333.

For technical assistance and ADA accommodations, contact United Arts at **Outreach@UnitedArtsCFL.org** or (407) 628-0333.

More information regarding the Committee is available at https://netapps.ocfl.net/arctdtgrants/tdtgrants.

Grant Portal Tips

• Only have Foundant open in one tab at a time on your computer. If more than one tab is open on a single computer, your changes will not save!

- O This does not impact having collaborators working on the grant at one time from different computers.
- For narrative questions, Rich Text has been enabled.
- Invite others from your organization or partners to collaborate with you on the application by hitting the blue collaborate button.
- Character Count Character Counts have not been established for each question. The maximum character lengths is 10,000. There is **no expectation** that the full space is used.
- Applicant facing Foundant Tutorials can be found here.

Eligibility Screening

Who can apply for TDT Funding?

State law typically requires public ownership of facilities receiving TDT Funding. The County has had past preference for projects sponsored by governments and non-profit sponsorship groups.

One application per organization using a single application, for the same organization, project, site, or phase. A City government may make an application for more than one project as long as they are within separate and distinct departments and do not address the same facility, project, site or phase.

In the section below review the eligibility requirements for the Tourist Development Tax, Application Review Committee funding opportunity.

If you have any questions about the eligibility or your organization or capital project, please reach out to United Arts of Central Florida staff, at Outreach@UnitedArtsCFL.org or 407.628.0333.

Organizational Eligibility*

Applicant (Project Sponsor) must be either:

(a) A municipality/city government located in Orange County

OR

(b) An organization that is:

Printed On: 23 May 2024

i. incorporated or authorized as a not-for-profit corporation as defined in Section 501(c)(3) or (4) of the Internal Revenue Code of 1954, AND designated as being in compliance with s. 170 of the Internal Revenue Code of 1954, at the time of application.

Applicant is a 501(c)(3) or 501(c)(4) designated Not-for-Profit corporation

In Good Standing*

The applicant organization is in good standing pursuant to Chapter 617, Florida statutes; the Internal Revenue Service and Sunbiz. See Attachment B in Guidelines for more information.

Yes, Applicant Organization is in good standing

Facility Eligibility*

The applicant's venue for a proposed capital improvement project must be located in Orange County, and must be one of the following:

- a. A convention center, museum, auditorium, sports facility, or other facility allowed in Section 125.0104 of the Florida Statutes governing TDT
- b. A facility that is owned and operated by a government entity;
- c. A facility that is owned by a government entity that is leased to a not-for-profit organization for operation as a facility open to the public;
- d. A facility that is owned by a not-for-profit organization situated on publicly owned property with a ground lease that meets the requirements of the "Checklist for Ground Lease" (found in Attachment D in the guidelines)
- e. A facility that is leased from a government entity that in turn has an eligible lease on the building from a private owner.

In the checkbox list, select the letter that matches the proposed capital improvement project.

(c)

Administrative and Legal Eligibility*

- a. Have ownership or undisturbed use of the land and building, Public access must be allowed for the length of the required lease.
 - 1. For renovation and equipping requests, the facility must be in existence and meet both the applicant and lease eligibility requirements.
- b. Retain ownership of all improvements made under the grant (exception: land or building owned by Orange County and leased to an eligible applicant.
- c. Have satisfied the administrative requirements of any previous grants received through the County.
- d. Have a maintenance reserve in their budget and refrain from applying for on-going maintenance of current equipment.
- e. Provide at least one year of programming in Orange County attracting tourists.

Authorized Agent understands and agrees that applicant organization meets above requirements.

Statute Allowable Use*

Printed On: 23 May 2024

Section 125.0104, Florida Statutes, outlines the authorized uses of the Tourist Development Tax. The authorized uses for ARC TDT funds are listed below. Please check the box for the section that applies to your project.

To acquire, construct, extend, enlarge, remodel, repair, improve, maintain, operate, or promote one or more of the following facilities *located within Orange County*:

- (1) Publicly owned and operated convention centers, sports stadiums, sports arenas, coliseums, or auditoriums;
- (2) Auditoriums that are publicly owned but are operated by organizations that are exempt from federal taxation pursuant to 26 U.S.C. s. 501(c)(3) and open to the public; or
- (3) Aquariums or museums that are publicly owned and operated or owned and operated by not-for-profit organizations and open to the public.

From the dropdown menu below please select the number that corresponds to the statute allowable use for the project being proposed.

(3)

Project Funding Scope*

Yes. Is in excess of \$2 million and up to and including \$15M.

Land and Building Use*

The project sponsor (applicant) has ownership or undisturbed use of the land and building; public access must be allowed for the length of the required lease.

Yes

Renovation or Equipping Requests

For renovation or equipping requests, the facility must be in existence and meet both the applicant and lease eligibility requirements.

Yes

Ownership of Improvements

Retain ownership of all improvements made under the grant (exception: land or building owned by Orange County and leased to an eligible applicant).

Yes

Confirmation of Reading Guidelines*

Please confirm you have carefully read the TDT Notification of Funding and Guidelines Capital Projects and Venues) Additional information and Clarifications (Attachment A to F) included in the Guidelines packet.

Key Document Guidelines Packet.

Yes - applicant confirms they have carefully read the guidelines and additional information.

Section 1: Preliminary Information

Tax Exempt Organization*

Is the organization Tax Exempt

Yes

501(c)(3)

Tax Code Status*

What is the Tax Code Status of the applying entity (project sponsor)

Federal ID Number*

What is your Federal ID# as it appears on Form W-9 59-0896343

Company/ Organization Name*

Input the name of the company, organization or entity that is applying for funding.

Orlando Science Center, Inc.

Address*

In the text box below, input the address of the applicant organization (if mailing address is different from physical address, please include both)

Include Building Number, Street Name, City, Zip Code and State

Also include the physical address of the facility / venue that is the subject of this proposal.

Project Name*

Orlando Science Center's Event Venue Enhancement

Project Summary*

Printed On: 23 May 2024

Provide a summary of the proposed Capital Project

Orlando Science Center (OSC) is Central Florida's award-winning, hands-on science museum. Fully accredited by the American Alliance of Museums, it ranks as one of the most popular museum destinations in the region. OSC brings science to life for nearly 600,000 annual visitors, impacting over 14 million individuals since inception. OSC is driven by a mission to inspire science learning for life and a vision to create prosperity in our community that enhances lives.

OSC respectfully requests support of \$14 million to support the next phase of our Unlock Science campaign, which aims to revitalize our visitor experience. Unlock Science's infrastructure and programming updates help solidify OSC as a national leader in STEM informal education, drawing out-of-town audiences, and elevating the cultural landscape in our community. As we look towards the future, we understand the need to provide sustainable revenue to continue to provide exceptional experiences to the community. By improving our ability to provide an ideal venue for events, weddings, and expositions, OSC is poised to make a significant impact for our community and the many tourists Orlando attracts each year.

OSC's proposed project includes the enclosure of OSC's Terrace, located on Floor 4 of the Center, to create a multi-purpose venue to provide our community with improved rental venue options and additional flexible programming space for OSC visitors. Venue rental is an important source of revenue at OSC and an opportunity to broaden our reach to out-of-town visitors. OSC annually hosts over 300 venue rental events, approximately one-third of which are weddings in addition to expositions, corporate social events, holiday parties, fundraising galas, seminars, luncheons, and more. OSC offers various venue options, including a traditional meeting room, theaters, and even our exhibit halls. Rental clients, particularly weddings, enjoy the Terrace because it offers panoramic, unobstructed views of Downtown Orlando and the stunning surrounding greenery. However, because this is currently an uncovered outdoors space, there are significant operational limitations. When the Terrace is booked for an event, one of the exhibit halls is reserved as a backup space in case of inclement weather, which limits the number of concurrent events that can be booked in the space. Due to the proximity of residents in the area, events on the Terrace currently must end by 10pm to avoid noise complaints. Our project would address these limitations, while still maintaining the City Beautiful views through expansive glass windows. This premier rental space will attract increased wedding and corporate events from throughout the country.

The new venue will feature a space-themed exhibit design, creating both a fun and unique location for rental events and a new space for our regular attendees. When the space is not in use for rentals, it will serve as an

additional exhibit hall space for OSC visitors during the day and will include a variety of activities and programming. The hall will be designed so that exhibits are easily moveable to make way for events in the evening. This would increase OSC's programming space by 6,500 square feet. The design for the enclosure includes the addition of an increased outdoor deck on floor 6, adding 1,630 square feet of exterior space. This deck can be used in conjunction with rental events (such as a wedding ceremony or photo session) and will provide increased capacity for guests to visit OSC's observatory on floor 6.

Tourist Attraction

In FY2023, OSC served 594,072 people, including 532,885 on-site attendees. 46% of attendees were from outside Orange County and 16% were non-local from outside the defined seven county area. With an average group size of three visitors, we estimate 75% of non-local tourist visitor groups to OSC are generating at least one room night. Based on this methodology, OSC generated an estimated 21,082 room nights for FY2023. We project a 27% increase in annual room nights will be generated from our tourist visitors in FY2029 upon completion of the first year of the terrace renovation. With several indoor and outdoor settings, OSC serves as a venue for an array of events that have the potential of bringing tourists to Central Florida, including business retreats, conventions, and weddings. Please see "Target Audiences" for more details.

Advertising Reach and Tourism Industry Collaboration

Our strategic marketing plan includes high impact national and international coverage through media relations, traditional advertising channels and social media. OSC will continue a partnership with Visit Orlando to extend our promotional reach beyond our region to attract national and international interest. Partnership with Visit Orlando is integral to targeting non-local tourists, as we receive promotions in various publications and websites promoting Orlando as a destination. OSC hosts an artifact display in the concourse at Orlando International Airport, reaching thousands of tourists each day. OSC has cultivated productive relationships with several media outlets including digital, print, radio, and television. Thanks to Orange County TDT's support, OSC's newest exhibit, Life opened to the public in April 2024. Beginning with the groundbreaking ceremony in June 2022 through Life's official opening in April 2024, OSC has received a great deal of media coverage. This coverage acts as a catapult for community and national interest in the organization. Our strategic marketing efforts to reach a broader audience have led to year-over-year increases in attendance and as a result we saw a 54% increase from FY2021 to FY2023 and are now close to reaching pre-pandemic attendance numbers. Please see "Venue Marketing and Advertising Plan" and "Support Document 1" for more details.

Ouality/longevity Maintenance Care and Stewardship

All new construction will comply with our current LEED Gold status and long-term sustainable design criteria ensures energy and water efficiency and minimal maintenance or upkeep issues for at least a 10-year life cycle. We have \$5.2 million in financial reserves held for operating and facility maintenance purposes and long-term major maintenance planning will reserve \$325,000 per year to fully fund over \$11 million of major maintenance needs planned for the next 25 years.

Operational Readiness & Process/Design

Printed On: 23 May 2024

Our governing Board of Trustees advises on matters of finance and operations to ensure organizational health. Their unique skills, industry knowledge, social and demographic backgrounds ensure that diverse opinions and experiences are represented. JoAnn Newman has led OSC since 2009 as President/CEO. Collectively our Senior Team has over 100 years of non-profit management and museum experience and successfully led OSC through the first phases of our Unlock Science campaign. We have successfully completed OSC's largest construction project in our history, Life, thanks to funding from Orange County TDT and other generous funders. This project, the largest construction project in our Unlock Science campaign, was shovel ready when awarded in May of 2019. When the pandemic occurred, the project was put on hold at the request of Orange County. Given the go ahead to resume in late 2022, OSC's team worked through a myriad of supply chain issues and has successfully completed the project. The completion of Life following a pandemic is a true testament to OSC Staff's perseverance and resolve. OSC has confirmed the logistics of this project's14-month build, scheduled to begin in June 2027, according to the conceptual project timeline developed by Little Diversified Architectural Consulting for design. Please see "Status of Site Work" for more details.

Financial Readiness

OSC has strong financial partnerships for our comprehensive campaign, through which we have received generous funding from individual donors, foundations, corporate partners, and other agencies. We have a proven track record of being a diligent steward of funding from private and public entities, including support received from Orange County, particularly through the Arts and Cultural Affairs grant initiatives, as well as major grant awards from Federal agencies including NASA, USDA, Dept of Defense, Dept of Navy, and the Office of Naval Research.

Economic Benefit

Cultural excellence is crucial to Orlando's economic development and the success of Central Florida businesses. This project will enhance tourism, impact the growth in local employment across several industries including tourism, and increase local spending power in Orange County. According to the Americans for the Arts' Arts & Economic Prosperity 6 Calculator, in addition to jobs created in relation to construction of this project, OSC's expenditures will support a total of 336 full-time equivalent jobs, with our audiences' expenditures supporting 437 full-time equivalent jobs at the conclusion of the Terrace construction. Please see "Supporting Development" for more details.

Tax Revenues

As a major enhancement for our on-site guest experience, and attendance driver through increased special events, this project will contribute to a year-over-year growth in local government revenues earned as it pertains to the impact of our organization and visiting audience. OSC helps leverage a substantial amount of event-related spending from visitors that are both local and non-local. Visitors pay for parking, transportation, lunch or dinner at restaurants, souvenirs, and spending at other businesses while in town. As one of nine cultural organizations located in the region's premier cultural center, Loch Haven Cultural Park, our visitors have an opportunity to visit other local arts and cultural organizations within walking distance. OSC generates over \$150,000 in sales tax from our onsite activities, such as our coffee shop, café, gift shop, and other earned income sources.

Venue/Project Location*

From the dropdown menu select the Project's Orange County District Number and Commissioner's Name. Click on the link to learn more about the Board of Commissioners.

District 5 - Emily Bonilla

Facility Ownership*

Who owns the facility?
The City of Orlando

Land Ownership*

Who owns the land? The City of Orlando

Approved Land Use*

Is the Land Use Approved?

Yes

Total lease Term

If it is leased to the applicant, how long is the lease term?

A 50-year lease was signed in February 1993.

Total lease Term Remaining

If leased to the applicant, how long is the remaining term of lease?

The remainder of the lease term is 19 years.

Status of Site Work*

Printed On: 23 May 2024

What is the status of site work required?

OSC hired Little Diversified Architectural Consulting Studio to complete a Feasibility Study for this project, who assembled a project team consisting of RTM Engineering Consultants, KMI International, and McElroy Engineering LLC. This team determined that the project is viable and that the site is considered "shovel ready". Our current systems, such as plumbing, electrical, HVAC, and fire are capable of supporting the enclosure, with some manageable modifications. Additionally, structural was reviewed to ensure that the additional weight would not be an issue. Life safety was reviewed to compare to current building codes. All these elements with the requested modifications have been deemed feasible. Please see highlights from the Feasibility Study below.

- Addition of structural steel horizontal and a few vertical members will allow for The Terrace to be
 expanded and refinished to an interior space. This can be done without impacting what is below the
 terrace.
- The current configuration lends itself to efficient egress from the 4th floor as well as separation between the circulation space and the newly enclosed volume.
- There is existing elevator access to the 4th and 6th floors adequate for emergency egress.
- Current surplus restroom facilities meet code requirements.
- Existing storm pipes are sized accordingly.
- The HVAC load calculations and equipment evaluations for a proposed building addition were conducted using Carrier's Hourly Analysis Program (HAP v6.1). The report verifies the capacity of existing chiller system to accommodate the building addition.
- The heating hot water system analysis indicates a demand of 193 GPM during design day conditions. To address this need and accommodate future expansion, OSC will install an additional Lochinvar FTX850 boiler connected in parallel. This addition, along with upgrading pipe diameter to 4", will ensure adequate hot water supply for both current and future needs.
- The electrical load requirement of the building is approximately 1150A being utilized from the 2500A service provided by the utility. It was determined that the building can support the proposed added HVAC loads.
- There is an existing 120/208V distribution board that can serve the general lighting and power loads of the new space.

If funded, OSC will engage with our Project Team to finalize design and construction documentation to

receive permitting to break ground in June 2027. Plans for building site closures and safety during the 14-month buildout will be implemented as soon as construction begins. This includes any wayfinding signs for visitors, proper identification for contractors, and taking the proper actions to close off the work site to unauthorized visitors and staff, such as the installation of temporary barriers and restricting hours of load in/out for contractors as not to interfere with daily operations.

Professional Team*

Printed On: 23 May 2024

Describe the professional team of architects, engineers, owner's reps, construction firms etc. you have working on the project.

OSC hired Little Diversified Architectural Consulting Studio to complete a Feasibility Study for this project, who assembled a project team consisting of RTM Engineering Consultants, KMI International, and McElroy Engineering LLC.

Little Diversified Architectural Consulting Studio is a national firm founded in 1964 with over 400 employees, 6 locations, and has received over 250 awards. More information and examples of Little's vast portfolio can be found on their website (www.littleonline.com).

RTM Engineering Consultants is a national MEP, Civil, and Structural engineering firm with 23 offices and licensed in 50 states. Explore RTM's wide range of impressively completed projects on their website (https://rtmec.com/).

KMI International is an employee-owned construction firm founded in 1999. KMI extensive construction consulting experience, including numerous projects with Universal Orlando over the past 15 years. (https://kmiintl.com/).

McElroy Engineering LLC specializes in structural engineering and has successfully completed projects for tourist industry clients such as Disney, Westgate, Marriot, and Sunrail. (https://mcelroyeng.com/).

Feasibility Study*

Does the project have a feasibility study to submit?

Yes

Required Permitting*

Describe the status of the required permitting, design work, and plans. Also, include any construction work already performed

OSC hired Little Diversified Architectural Consulting Studio to complete a Feasibility Study for this project, who assembled a project team consisting of RTM Engineering Consultants, KMI International, and McElroy Engineering LLC. This team determined that the project is viable, and assisted OSC in determining the cost and timing of permitting needs. Using the information from this study, OSC has included the appropriate permitting costs in our project budget and allocated time to securing permitting in our Project Timeline from March 2027 – June 2027.

Construction Timeline and Milestones*

Provide the construction timeline and milestones for the proposed project

- June 2026 February 2027: Project Design Development and Construction Documentation of Facilities and Exhibit
- March June 2027: Permitting and Long-Term Procurement of Goods
- June 2027- September 2027: Site Prep and Demolition
- October 2027- September 2028: Production Phase
 - o Build Out Structural Work including Roof Drain installation, Glass and Glazing, Expansion of 6th floor Terrace, Flooring and Wall Finishes
 - o Installation of Exhibit Content and Lighting

Operating Proforma*

Please provide an operating pro forma for the next five years of project operating (following construction or renovation project completion) to show how the facility operations will be funded and the funding of renovations and maintenance costs of the facility.

Target Audiences*

Printed On: 23 May 2024

What are the target audiences for the facility?

Primary audiences of Orlando Science Center's exhibits and programming include resident families, students, teachers, tourists, and business convention attendees and their families. OSC tracks attendees and ticket sales to collect annual visitor reach data. Our attendance data is available on our website, published in our annual Community Impact Report and Central Florida Foundation nonprofit portrait. As a member of the Association of Science-Technology Centers (ASTC), we track and report attendance for their analysis and during our presentations at ASTC's international conferences. ASTC works with science centers around the world to help further science centers' capabilities to attract tourists, be a community asset for economic development, and encourage innovation in informal science learning.

Our attendance continues to grow as we build new state-of-the-art exhibits, such as Life, and refresh our content as part of our ongoing Unlock Science capital campaign. OSC leadership has projected a significant attendance growth in FY2024, due to Life's opening, which translates to about \$1.4M of revenue from walk-in traffic during the first 4 months of grand opening. OSC also utilizes these revitalized exhibit spaces during our special events and programs, such as Spark STEM Fest and Science Night Live. The improved quality of the Science Center's facilities provides for a more engaging environment for our visitors, community partners, vendors, and artists that come to showcase or present.

We ensure that our advertising materials accurately represent our diverse regional community audience. We have strategically focused on expanding marketing efforts to appeal within the Hispanic community. We have a long-term relationship with Hernan Tagliani and his firm, The Group Advertising, who advises and supports our Hispanic Marketing efforts. The Group develops and implements Spanish marketing campaigns to help us attract members of the Hispanic community. These efforts to reach a broad Hispanic audience have led to a year-over-year increase in attendance. The Hispanic population currently comprises 28.6% of our total attendance.

OSC brings interest and respect from our peers around the world by presenting innovative, world-class events and exhibits. OSC is nationally renowned as a leader in informal (out-of-school) STEM education, as indicated by our selection as a five-time finalist for the Institute of Museum and Library Services' National Medal, the Nation's highest honor for museums for "demonstrated extraordinary and innovative approaches to public service", most recently in 2024. OSC is a proud member of the Association of Science and Technology Centers (ASTC) and the American Alliance of Museums. OSC's CEO serves on the Executive Board

for ASTC, and at the 2023 ASTC conference, attended by industry leaders throughout the nation, OSC's VP of Education, Emily Duguid was a session panelist, describing our outreach work funded by NASA's TEAM II STAT grant program. Additionally, OSC is one of 17 museums nationwide selected to participate in The LEGO Group's Playful Learning Museum Initiative, which aims to promote playful learning activities that develop essential life-long skills such as creativity, curiosity, critical thinking, collaboration, and engagement.

OSC's high level of both quality and consistency of service has solidified the Science Center as a highly sought-after rental venue. OSC's highly skilled Event Team consists of 8 employees with 30 combined years of experience. OSC hosts about 90 weddings each year. Our unique venue draws in couples from around the world. Whether the wedding hosts are local or visitors, many guests visit from out-of-town. We anticipate wedding bookings to increase with the completion of the Event Venue Enhancements. As stated in the Project Summary, enclosing the Terrace will allow for a more optimal wedding space as receptions will be able to run later into the evening, which is highly requested by current clients. Additionally, when booking events in Florida, many clients prefer a covered or enclosed space due to unpredictable weather conditions. Furthermore, our Events Team often needs to turn away wedding clients due to capacity constraints, but the new design would increase event seating capacity from 200 to 300. Many couples choose OSC as their wedding venue because we offer a fun, unique, themed atmosphere. This new space will not be an ordinary reception hall, but rather a space-themed, state-of-the-art venue and exhibit option matching the standard OSC has set for our entire facility.

These improvements would also make the Terrace a more desirable venue for corporate clients. OSC's facilities offer a fantastic option for business meetings, expos, and conferences. Often these events require multiple rooms for concurrent activities, and the addition of an enclosed Terrace would add 6,500 square feet for this purpose. We have built a network of key connections, which has led to OSC being a destination for corporate bookings for regional, national, and international companies. The Event Team has been led by Helen Tillem, Director of Events, since 2007. With 17 years of experience, Tillem has a wealth of knowledge regarding Central Florida events. This expertise consistently encourages clients to return year after year. Select examples of recent business clients include: Booking.com, Sherwin-Williams, International Association of Amusement Parks and Attractions, National Association for Industrial and Offices Parks, Dell Computers, Siemens Energy, Yelp, iHeart Media, XL Event Lab, The American Society of Civil Engineers, Edward Jones.

Based on data collected from the Placer.ai traffic analytics platform, OSC's evening attendance (rental event attendees) over the past 12 months consisted of 21% non-local visitors, which included 9% out of state visitors. Please note that these figures only represent visitors between 5pm-11:59pm, while the "Expected Event Attendee Origin" numbers below represent total attendance.

Hotel Room Night Rebates*

Do contracts include hotel room night rebates?

No

Rebate Per Room Night

If answered yes to the question above, please list the amount of the rebate per room night.

Projected Room Nights

How many annual room nights do you **project** this venue will bring to Orange County? 26856

Guaranteed Room Nights

How many annual room nights do you guarantee this venue/project to bring to Orange County?

Hosting Third Party Events

If the facility plans on hosting a substantial number of third-party events, please explain your acquisition plan.

OSC typically hosts approximately 300 venue rentals annually, one-third of which are weddings. We advertise OSC as a wedding venue through Wedding Pro (The Knot and Wedding Wire) and Wedding Venue Map, where we are listed on the homepage as a featured venue. On each of these sites, OSC is very well rated with excellent client reviews. Please find reviews, ratings, and awards from each of these sites in addition to OSC's Wedding Guide in "Support Document 2". Our primary source of new rental clients come to us from word of mouth, based on our reputation as a stellar, unique, centrally located venue. Our Events Team predicts a 40% increase in event rental revenue as a result of this project.

Expected Event Attendee Origin

- Local Orange, Osceola, Lake, Polk, Brevard, Seminole, and Volusia Counties
- Non-local, In-State -- Attendees from remaining FL Counties
- Out of State

9

Methodology Attendance and Room Night*

How do you intend to provide a valid estimated count of attendance and room nights for each event at this venue?

Orlando Science Center tracks attendance and ticket sales to collect annual visitor reach data. We obtain zip code information for on-site Science Center visitors to determine attendee origin. OSC analyzes past attendance data to project future attendance. Projected room nights estimates are based on OSC zip code tracking data. Based on our average group size of three visitors, 75% of non-local tourist visitor groups are

generating one room night for Orange County. We estimate a total of 16% of OSC's total annual visitors are non-local visitors from outside the defined seven county area. OSC uses a consumer analytics platform, Placer.ai, to collect geolocation and proximity data from mobile devices to create anonymized and aggregated consumer profiles. This data helps gain greater insights into visitors' habits and behaviors.

Job Creation

In the table below, enter the following information.

For two phases: (1) Construction phase and (2) Operating phase enter the number of full-time and part-time jobs to be created from project.

Phase 1: Full-Time Construction Jobs Created				
Phase 1: Part-Time Construction Jobs Created	25			
Phase 2: Full-Time Operating jobs Created	2			
Phase 2: Part-Time Operating Jobs Created	2			

Supporting Development*

Printed On: 23 May 2024

How will this project drive or support development in the surrounding area, including attracting new businesses and/or supporting recruitment efforts of the surrounding business community?

OSC's Event Venue Enhancements would further solidify the Science Center as both a vital community resource and a world-class cultural destination. A community's strong cultural landscape makes it a more attractive place to live, and therefore for businesses to start or relocate as it is somewhere where their employees would like to live. According to Americans for the Arts 2023 national survey, 86% of respondents reported that "arts and culture are important to their community's quality of life and livability" and 79% reported that arts and culture "are important to their community's businesses, economy, and local jobs". Furthermore, attendees to the Science Center, whether attending OSC's exhibits and programs, a business conference, or a wedding, also support neighboring businesses through lodging, restaurants, transportation, childcare, and more. The Americans for the Arts survey also found that "attendees at nonprofit arts and culture events spend \$38.46 per person per event, beyond the cost of admission—vital income for local merchants and a value-add that few industries can compete with."

OSC offers an excellent venue for a variety of corporate events such as luncheons, conferences, holiday parties, networking events, expositions, and quarterly meetings. Our venue's size, flexibility, and dedicated Events Team make it an ideal facility for these events, further solidifying Orlando as a prime location for highwage employers. In addition to the unique nature of the Science Center as an event space, unlike other venues like the convention center, OSC is located 2.5 miles from Downtown Orlando's Central Business District, making it more accessible as a central location.

OSC's robust Events Team has an excellent reputation for facilitating exceptional events, making us a popular choice for weddings, which bring many out-of-town guests to Central Florida. It is standard for wedding hosts

to book a block of rooms at one or more local hotels for these guests. These are often multi-day stays to accommodate for both the wedding and the surrounding festivities, such as a welcome party, rehearsal dinner, farewell brunch and more. To encourage support of our tourism industry, OSC provides all wedding clients with a list of hotels near our building: Comfort Suites Downtown Orlando (0.40 miles), DoubleTree by Hilton Orlando Downtown (1.5 miles), Courtyard Marriott Orlando Downtown (1.5 miles), Residence Inn Marriott Orlando Downtown (1.9 miles), AC Hotel by Marriott Orlando Downtown (2.1 miles), Crowne Plaza Orlando Downtown (2.3 miles), Hilton Garden Inn Orlando Downtown (2.3 miles), Grand Bohemian Hotel Orlando (2.9 miles), Embassy Suites by Hilton Orlando Downtown (3.0 miles), Aloft Orlando Downtown (3.1 miles), Marriott Orlando Downtown (3.3 miles), and the Alfond Inn at Rollins College (5.4 miles). Additionally, wedding clients support local businesses through the hiring of vendors such as furniture and linen rental, photographers, catering, entertainment, and more. According to The Knot's 2023 Wedding Report, marrying clients hire an average of 10 professionals in connection with their wedding. OSC hosts a biannual Unveil Wedding Showcase, featuring 30+ local wedding vendors to help encourage couples to support Central Florida businesses.

Unveil is a very popular event for couples and families preparing for an upcoming wedding and can serve as a one-stop-shop for all vendor needs, highlighting local photographers, photo booths, decor, catering, transportation, and more. Each Unveil typically has 250-300 attendees. In reviews from couples on The Knot and Wedding Wire, Unveil is frequently mentioned and recommended as a useful tool for hiring vendors. This is an invaluable opportunity for vendors to connect with new clients. According to Unveil vendor and Co-Founder of Wedding Venue Map, Shannon Tarrant, "Attending the Unveil wedding show event as a vendor at the Orlando Science Center for the last few years has been a pleasure! From the moment we arrived, the couples are greeted with warmth and excitement, setting the tone for a truly memorable experience. As a vendor, participating in this event provided us with a platform to connect with countless wonderful couples... the wedding show fostered a sense of community among vendors and attendees alike. It was inspiring to see everyone come together with a shared passion for creating magical weddings and lifelong memories. From florists and photographers to caterers and planners, each vendor brought their own unique talents and expertise to the table." Please find Shannon's full testimonial in "Support Document 2".

TDT Funding Request Amount*

Total amount of TDT of grant funding being requested from the County TDT for this project? \$14,000,000.00

Funding Timeline*

Provide the timing of the funding needed during the project timeline. The funding window for this Funding Opportunity is October 1 2024 - September 30 2028.

Using the rich text editor (Bold, Italicized, Underlined) separate funding years.

2026: \$ 2,000,000 2027: \$ 6,000,000 2028: \$ 6,000,000

Multi-phase Project*

Printed On: 23 May 2024

Indicate if this is part of a larger, multi-phase project Yes, it is part of a larger multi-phase project

Total Project Amount

Include the Total Project Amount below if this request is part of a larger multi-phase project.

\$14,113,524.77

Use of Funds*

Please remember to attach itemized expenditures to be funded by the grant. Attach a complete proforma budget for the project including a listing of all anticipated funding sources and expenditures.

Will you be partnering for promotion with Visit Orlando or another local agency or group?

Event Venue Enhancement Budget - with Explanations (1).pdf

Funds will be spent over a 28-month period from June 2026 to September 2028. Funds will be spent to hire an exhibit designer, fabricator, and construction firm. These entities will help finalize our work, and allow us to complete demolition, infrastructure changes, final exhibit design, buildout of the facilities, production of the exhibits, and installation. Facilities hard costs including structural steel, concrete, HVAC upgrade recommended, plumbing and drainage, glass and glazing and electrical represent the largest portion of the infrastructure spend plan. Additional facility hard costs include providing more structural steel to support the new space, rough carpentry needs, drywall and hardware installation, new electrical wiring, and fireproofing. Funds will be allocated to exhibit production and design.

Government Funding Support*

List All other actual or potential city/county/state/ federal funding sources for this project including:

- Visit Orlando
- Visit Florida
- Central FL Sports Commissions
- Parks & Recreation Department
- Department of Cultural Affairs
- Orange County Cultural Tourism
- Etc

Printed On: 23 May 2024

Note: Failure to disclose other funding sources may result in denying future TDT funding of facility/ venue projects

The requested funding will fully fund this project as it falls under Unlock Science, OSC's successful multi-year, comprehensive campaign. The Unlock Science campaign kicked off ten years ago, focused on revitalizing OSC exhibits and broadening our reach into the community. We have successfully raised \$29 million to date.

To date, our comprehensive campaign has made many critical improvements at the Science Center a possibility:

- In 2015, OSC finished renovating the lobby and science store, while also reclaiming space for a new KidsTown exhibit by performing an in-fill on the second floor.
- In 2016, construction for new KidsTown was completed in October, which helped increase attendance by 10% from the prior year with a 5-year attendance growth of 66%.

• In 2017, construction started on the STEM Discovery Center, which entailed renovating our 7 learning labs within the Education department. By the end of the year, 4 of the learning labs were being regularly used for programming, classes, and winter break camps.

- In 2018, we finished the learning lab renovations, while also debuting the new Flight Lab, made possible by a generous grant from the Office of Naval Research. The first half of 2018 also saw the completion of our new making and tinkering exhibit, The Hive: A Makerspace.
- In 2021, OSC introduced the Tiny Green Home offering hands-on experiences to increase sustainability education, and Food Heroes which explores the complexities of our food system.
- In 2024, OSC completed and opened Life, an immersive nature and conservation exhibit, and OSC's largest construction project in our history.

Orlando Science Center has received a total of \$16,761,052 of government support for its Unlock Science Campaign:

- City of Orlando- \$725,913
- Orange County TDT funds-\$10,000,000
- Orange County Arts and Cultural Affairs- \$2,296,352
- State of Florida- \$2,113,784
- The Office of Naval Research-\$1,625,003

Non-Governmental Funding Support*

List all other non-governmental contributors, sponsors, and sources of funding for this project other that TDT from Orange County.

Note: Failure to disclose other funding sources may result in denying future TDT funding of facility/ venue projects

The requested funding will fully fund this project as it falls under Unlock Science. Unlock Science has received \$12,386,202 from Non-Governmental Funding including:

- Dr. Sarah Layton
- Robert and Virginia Finfrock
- Albert Isaacs Charitable Lead Trust
- Florida Hospital
- Dr. Phillips Charities
- A Friends' Foundation
- Michelle & Ryan DeVos

Additional Funding Sources

What additional sources of funding have you sought or do you intent to seek outside of those listed above?

Note: Failure to disclose other funding sources may result in denying future TDT funding of facility/venue projects.

The requested funding will fully fund this project as it falls under Unlock Science. We will continue to seek both private and public funding for other projects that fall under Unlock Science.

Past Florida TDT Funding

Printed On: 23 May 2024

If applicable, in the table below list past Florida TDT Funding (to include each with Florida County, amount requested, amount granted, amount spent and purpose).

County and Year	Amount Requested	Amount Awarded	ount Awarded Amount Spent			
Orange County 2021	\$10,000,000.00	\$10,000,000.00	\$10,000,000.00	Life exhibit		

Section 3: Venue Marketing and Economic Impact Details

Venue Marketing and Advertising Plan

What are your marketing and advertising plans (local, regional, national, and or international)? Will you partner for promotion with Visit Orlando or another local agency or group? Please see attachment F for more information.

OSC's strong team of internal staff and external partners continue to be extremely successful in marketing, public relations, and social media outreach. Our strategy includes ad placements across multiple channels, creative and targeted social media campaigns, and customized pitches leveraging strong media relationships. The marketing campaign to promote this new expansion, as both a premier event destination as well as new exhibit content, will target out-of-town audiences while increasing awareness of OSC's value as a cornerstone of Orange County's cultural and educational offerings.

Paid media will include advertisements across all platforms (programmatic digital, print, radio, and grass roots marketing), supported by in-kind placements to add value to specific buys (Orlando Sentinel communications, iHeart Media and WMFE-FM for example). OSC benefits from generous support from Google as a longtime recipient of their grant program to support Search Engine Optimization (SEO) efforts. Their support is leveraged with strategic Google ad campaigns to ensure OSC is top of mind with targeted audiences. Our SEO efforts and Google pay-per-click (PPC) campaigns are coordinated through Larimer & Company, a local marketing contractor. Their extensive expertise in this field helps extend our reach throughout the region and beyond. SEO/PPC has been a cost-effective and efficient method of reaching a broad audience, nationally and internationally, to raise awareness of OSC as a tourist destination.

OSC contracts with The Group Advertising to market to Central Florida's Hispanic Community through targeted advertising on digital, print, radio and TV. Advertising will reach across the greater Central Florida region into the predetermined tourist areas. Orlando Sentinel Communications, iHeart Media and WMFE-FM (now Central Florida Public Media) are long-standing ad partners who support OSC with ad campaigns that are the foundation of our marketing strategy. Our marketing plan is a layered approach, which allows us to build on established brand awareness with targeted campaigns for specific audiences.

Paid social media ads and sponsored posts allow us to target key demographics and geographic areas to maximize exposure to drive tourism interest and specific audiences. These campaigns combined with media relations and strategic partnerships with Visit Orlando extend our promotion beyond our region to attract national and international interest. Past promotional efforts have generated strong, productive results for our exhibits and events, such as Spark STEM Fest, Pompeii, and now the all-new Life exhibit.

As a non-profit member of Visit Orlando, OSC benefits from promotions in many of their publications, websites, and collateral. Ongoing collaborations with the Visit Orlando PR team continues to generate national and international media coverage for OSC exhibits and events. OSC is visited by travel media at least once a month as a result of Visit Orlando's media passport program. These efforts allow OSC to expand our bandwidth beyond the efforts of our internal PR team.

OSC's PR team has solid relationships with regional media contacts and access to a media database to research additional national and international media contacts. The PR Team pitches story ideas to multiple regional, national and international media to stimulate interest in specific initiatives, such as our wedding/events opportunities and new exhibits. This plan includes initial broad outreach to all contacts in advance of opening this new space, followed by specific personal follow-up afterwards. Unique media opportunities for events and programming boost media exposure, e.g. media previews of new exhibits, guest expert interviews, or engaging media personalities to participate in new opportunities.

We are recognized as a STEM partner by the Interservice/Industry Training, Simulation and Education

Printed On: 23 May 2024

Conference (I/ITSEC), the world's largest modeling, simulation, and training conference organized by the National Training and Simulation Association. The I/ITSEC convention helps us promote OSC as a prime location for tech industry professionals and related businesses to hold workshops and events.

OSC works closely with the Association of Amusement Parks and Attractions' (IAAPA) international conference and tradeshow held for leaders in the attractions industry. In 2023 and again in 2024, OSC will host the museums, zoos and aquariums contingent at IAAPA with presentations, tours, and receptions. This relationship with IAAPA keeps OSC informed regarding future trends in tourism while helping strengthen valuable relationships with other leaders in the tourism industry. Creative and targeted social media campaigns, combined with customized pitches, leverage strong media relationships. The debut of this new space will target travelers across Florida, out-of-state tourists, and residents. OSC seeks and leverages opportunities for national and international exposure through traditional channels and carefully placed social media. We partner with Visit Orlando and United Arts of Central Florida to develop promotional opportunities and partner with arts and culture peers when possible. The unique opportunities with this new premier rental space provide new story angles to pursue with media focused on weddings and other events.

OSC partners with radio stations to provide added value and in-kind support for campaigns as well as feature on-air personalities for earned media value. Paid advertising will be placed on both English and Spanish speaking local stations. Radio efforts coincide with other campaigns to provide a layered approach that markets across multiple platforms.

Programmatic digital advertising will be placed on sites with demographics matched to the target market and include a variety of ad sizes. OSC works with a host of media partners that help our content reach intended audiences. Our marketing team has a strong, proactive digital effort that is created and maintained internally to push content that is sent to devices by both geofencing locations throughout our market areas and sending ads to those devices that align with key interests.

OSC has contracted with consumer analytics platform Placer.ai to access data that can inform marketing strategy and evaluate campaigns. Placer.ai collects geolocation and proximity data from devices that are enabled to share information by their users and creates anonymized and aggregated consumer profiles. This data helps refine our strategies by gaining greater insights into visitors' habits and behaviors like where they go before and after visiting OSC, the routes they take to get here, other businesses they frequent, etc.

OSC utilizes social media to maintain a high level of awareness and interest. Social media provides proactive channels that directly reach the public with targeted messages. Social media ads combined with sponsored posts on Meta boost exposure for larger reach and response. Sponsored posts can more than triple the level of engagement and awareness of traditional posts while ads are fed directly to the social media feeds of targeted audiences. Influencers are pursued for additional opportunities for social media exposure and catered to their unique needs. The hyper-targeted opportunities within social media make it an ideal platform for promoting this expansion to tourist audiences as well as those interested in weddings and other events. Wherever possible, we will take advantage of opportunities to utilize video in social media posts.

Digital and print billboards promote exhibits and major events with broad public interest. Outdoor placements are negotiated in advance, usually with additional donated space via our ongoing relationship with Clear Channel Outdoor. Outdoor effectively increases awareness of OSC among tourists traveling by car to and around the Orlando area and reinforces messages about OSC from television, radio, print and social media. Billboard campaigns are often combined with geofenced digital campaigns, which serve ads to consumer devices within close proximity of the billboard locations.

Ads will appear in select publications targeting out of area visitors through tourist-oriented publications in local hotels, resorts and welcome centers as well as those in the local market. Print ads reinforce messages from other media and complement media coverage appearing in those publications. Prints ads are strategically placed in a wide range of publications aligned with specific content. For example, promoting OSC as a wedding venue is the focus of ads in multiple wedding issues and guides for publications, such as Orlando Magazine, Winter Park Magazine and Watermark.

Printed On: 23 May 2024

Promotional postcards and rack cards are also produced for frequent distributions throughout the community and tourist areas. Postcards promoting new exhibits and events are visible at 200 locations throughout Central Florida (cafes, coffeehouses, boutiques and grocery stores) as well as select hotels and visitor centers along the tourism corridor. OSC works with Kenney Communications to distribute rack cards in hotels, visitor centers and rest stops along International Drive, attractions and the turnpike. OSC also regularly advertises in Kenney's publication, Enjoy Florida, which is distributed at hotel concierge desks along the tourism corridor and turnpike rest stops.

OSC also advertises exhibits, events, and other experiences through SCOPE, our member magazine that is circulated to 13,000+ households. Email marketing is also used to advertise specific programs and events to a targeted audience. Currently, OSC has over 104,000 email subscribers and often mines our ticketing database to identify new audiences to market exhibits and events.

Please see "Support Document 1" OSC's digital media impressions, social media impact numbers, awards, and a list of select media coverage partners (regional, national, and international).

Security Plans

Please describe security plans after the facility opens (including anticipated cost) as it relates to the need for private security or public/ law enforcement availability.

Due to the nature of this renovation project, our security plans will not change. Currently, we use our own House Managers as security for the building during normal operating hours. In conjunction with the Department of Homeland Security, we have refined many of our security processes through an annual audit process including procedures for: suspicious packages or mail, bomb threats, active assailants, key distribution, visitor and employee identification, threat alerts, severe weather alerts, criminal activity, garage closure, and suspicious person reporting. We also have an extensive camera surveillance system that is monitored by our House Managers for the security of our premises and above all else help ensure the safety of all visitors, students, and staff.

During our events held at the Science Center, we generally hire 3-4 local law enforcement officers to roam the building and provide security for the entirety of the event. For a private rental at the facility by an outside party, OSC facilitates the hiring of local officers or sheriff deputies, and the client covers the cost for security.

Annual Economic Impact for Orange County* \$1,435,481,00

Project Funding Narrative*

Printed On: 23 May 2024

Describe the project funding contingency, available financial reserves, and insurance protections. **Note:** See Attachment E of the Guideline Document for Insurance Protection Information

OSC will provide all required insurance protections as outlined in Attachment E of the Guideline Document. We have \$5.2 million in financial reserves held for operating and facility maintenance purposes and long-term major maintenance planning will reserve \$325,000 per year to fully fund over \$11 million of major maintenance needs planned for the next 25 years. We have a proven track record of being a diligent steward of funding from private and public entities, including support received from Orange County, particularly through the Arts and Cultural Affairs grant initiatives, as well as major grant awards from Federal agencies including NASA, USDA, Dept of Defense, Dept of Navy, and the Office of Naval Research.

Assumptions:

rental revenue

Labor costs generally increase 4%.

^{2.} Most other line items derived from 5-year CAGR experienced FY22 through FY24.

Terrace construction results in slight decrease of earned revenue
 Post-construction results in 40% increased event

Event Venue Enhancement Budget

Cost Breakdown	Explanation	Amount
Facility Hard Costs Total	Hard costs including structural steel, concrete, HVAC upgrade recommended, plumbing and drainage, glass and glazing and electrical represent the largest portion of the infrastructure spend plan. Additional facility hard costs include providing more structural steel to support the new space, rough carpentry needs, drywall and hardware installation, new electrical wiring, and fireproofing.	\$5,292,492.00
General Contractor Soft Costs	General requirements, insurance, and bonding.	\$708,975.00
Permits	OSC will engage with our Project Team to finalize design and construction documentation to receive permitting to break ground in June 2027.	\$78,019.07
Testing	Independent inspections to confirm quality of work and safety, such as special inspectors for welds, threshold inspectors, or concrete break testing.	\$120,029.34
GC Held Contingency	General contractor contingency.	\$309,975.77
Facility Design	Architectural and engineering Drawings.	\$720,176.04
Exhibit Production and Design	Concept design and design development drawings; Fabrication and production of exhibit.	\$3,036,000.00
Owners Contingency	OSC contingency.	\$1,807,493.40
Escalation	Escalation to mid-point of project.	\$2,040,364.15
Project Total		\$14,113,524.7

Certificate of Amendment to Articles of Reincorporation

Certifying a Name Change

from

John Young Museum Science Center, Inc.

to

ORLANDO SCIENCE CENTER, INC

MARCH 1, 1984

Department of State

attached Certificate Amendment the Articles Incorporation YOUNG SCIENCE CENTER, INC., changing its name to ORLANDO SCIENCE CENTER, INC., a Florida corporation, filed March 1, 1984, as shown bу the records office.

The charter number of this corporation is 708266.

Given under my hand and the Great Seal of the State of Florida, at Tallahassee, the Capital, this the

2nd

day of March, 1984.

COD WE

CER-101

George Firestone Secretary of State Information Note - Articles of Incorporation are unchanged since March 26, 1979, except for name change on April 27, 1981, and subsequent name change on January 23, 1984.

AMENDED

ARTICLES OF INCORPORATION

(a corporation not for profit)

ARTICLE I

NAME

Orlando Science Center, Inc.

ARTICLE II

TERM OF EXISTENCE

This corporation shall exist perpetually unless sooner dissolved according to law.

ARTICLE III

OBJECTS AND PURPOSES

The general nature of the objects and purposes of the corporation shall be:

- a. To further the public understanding of the nature and role of science, technology and industry in society;
- b. To develop greater appreciation of the nation's scientific, technological and industrial heritage and potential;
- c. To explain scientific principles, technological applications, medical advances and social implications in an understandable, meaningful and enjoyable manner;
- d. To assist schools in science education by supplementing formal classroom offerings with participatory experiences in the museum;
- e. To stimulate and serve creative young people who are interested in careers in science and technology,

and others who have an interest in these fields;

f. To provide useful and timely information that may
be helpful in making intelligent public decisions
which affect science, technology and industry; and
g. In general, to do all things necessary, suitable,
convenient or proper, to the extent a corporation not
for profit organized under the laws of the State of
Florida and exempt from Federal income tax under
§501(c)(3) of the Internal Revenue Code of 1954 (or
the corresponding provision of any future Internal
Revenue law of the United States) may now or hereafter
be permitted to do in order to accomplish the foregoing purposes and attain the objectives hereinbefore
stated.

The corporation is organized exclusively for charitable, religious, educational and scientific purposes, including, for such purposes, the making of distributions to organizations that qualify as exempt organizations under §501(c)(3) of the Internal Revenue Code of 1954 or the corresponding provision of any future Internal Revenue law of the United States.

ARTICLE IV

RESTRICTIONS

No part of the net earnings of the corporation shall inure to the benefit of, or be distributable to, its members, Trustees, officers or other private persons, except that the corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article III hereof. No substantial part of the activities of the corporation shall be the carrying on of propaganda or otherwise attempting to influence legislation, and the corporation shall not participate or intervene in (including the publishing or distribution of statements) any political

campaign on behalf of any candidate for public office.

Notwithstanding any other provision of these Articles, the corporation shall not carry on any other activities not permitted to be carried on by either

(a) a corporation exempt from Federal income tax under §501(c)(3) of the Internal Revenue Code of 1954 or the corresponding provision of any future Internal Revenue law of the United States; or (b) a corporation, contributions to which are deductible under §170(c)(2) of the Internal Revenue Code of 1954 or the corresponding provision of any future Internal Revenue law of the United States.

ARTICLE V

MEMBERSHIP

The membership of the corporation shall be comprised of those persons, firms, corporations, organizations and other entities who indicate a desire to promote the objectives and purposes of the corporation, and agree to abide by the Bylaws of the corporation including those relating to the payment of dues, membership fees or minimum contributions established for the class of membership to which they wish to belong.

ARTICLE VI

BOARD OF TRUSTEES

The affairs of the corporation shall be managed by a Board of Trustees comprised of Trustees whose number, qualifications and terms shall be in accordance with the Bylaws as the same may be from time to time amended; provided however that there shall never be less than fifteen (15) Trustees. The Board of Trustees shall have the power to elect, at any meeting at which a quorum is present, new Trustees to fill vacancies on the Board whether caused by death, resignation

or otherwise, by a majority vote of the Trustees then present and voting.

ARTICLE VII

OFFICERS

The affairs of the corporation shall be administered by a President, one or more Vice Presidents, a Secretary and a Treasurer. The Board of Trustees may elect such other officers, and designate their powers and duties, as it may from time to time deem necessary or desirable to manage the affairs of the corporation.

ARTICLE VIII

DISSOLUTION

Upon the dissolution of the corporation, the Board of Trustees shall, after paying or making provision for the payment of all liabilities of the corporation, dispose of all of the assets of the corporation exclusively for the purposes of the corporation in such manner, or to such organization or organizations organized and operated exclusively for charitable, educational, religious or scientific purposes as shall at the time qualify as an exempt organization or organizations under §501(c)(3) of the Internal Revenue Code of 1954 or the corresponding provision of any future Internal Revenue law of the United States, as the Board of Trustees shall determine. Any such assets not so disposed of shall be disposed of by a court of competent jurisdiction in the county in which the principal office of the corporation is located, exclusively for such purposes or to such organization or organizations, as the court shall determine, which are organized and operated exclusively for such purposes.

ARTICLE IX

BYLAWS

The Bylaws of the corporation shall be adopted, and they may thereafter be amended or rescinded, by a majority

vote of the Trustees present and voting at any regular meeting or at any special meeting called for such purpose; provided however that nothing herein contained shall prohibit the Bylaws from providing that they may be amended only upon the vote of any greater proportion of Trustees than herein stated.

ARTICLE X

AMENDMENT OF ARTICLES

Amendments to these Articles may be proposed by any Trustee at any regular meeting of the Board of Trustees, or at any special meeting called for that purpose, and such amendments shall be adopted by a two-thirds (2/3) vote of the Trustees then present and voting.

Form 990 required: Yes

Dear Taxpayer:

We're responding to your request dated July 31, 2018, about your tax-exempt status.

We issued you a determination letter in February 1957, recognizing you as tax-exempt under Internal Revenue Code (IRC) Section 501(c) (3).

We also show you're not a private foundation as defined under IRC Section 509(a) because you're described in IRC Sections 509(a)(1) and 170(b)(1)(A)(vi).

Donors can deduct contributions they make to you as provided in IRC Section 170. You're also qualified to receive tax deductible bequests, legacies, devises, transfers, or gifts under IRC Sections 2055, 2106, and 2522.

In the heading of this letter, we indicated whether you must file an annual information return. If you're required to file a return, you must file one of the following by the 15th day of the 5th month after the end of your annual accounting period:

- Form 990, Return of Organization Exempt From Income Tax
- Form 990EZ, Short Form Return of Organization Exempt From Income
- Form 990-N, Electronic Notice (e-Postcard) for Tax-Exempt Organizations Not Required to File Form 990 or Form 990-EZ
- Form 990-PF, Return of Private Foundation or Section 4947(a)(1)
 Trust Treated as Private Foundation

According to IRC Section 6033(j), if you don't file a required annual information return or notice for 3 consecutive years, we'll revoke your tax-exempt status on the due date of the 3rd required return or notice.

You can get IRS forms or publications you need from our website at www.irs.gov/forms-pubs or by calling 800-TAX-FORM (800-829-3676).

If you have questions, call 877-829-5500 between 8 a.m. and 5 p.m.,

ORLANDO SCIENCE CENTER INC 777 E PRINCETON ST ORLANDO FL 32803-1250

local time, Monday through Friday (Alaska and Hawaii follow Pacific time).

Thank you for your cooperation.

Sincerely yours,

stephen a martin

TDT Funding for Unlock Science/Life Final Report

Life's Opening

Orlando Science Center is pleased to present *Life*, our new nature and conservation exhibit hall. This 12,500-square-foot exhibition is Orlando Science Center (OSC)'s largest construction project to date and features three major biomes: an open-air tropical rainforest with a free-flight aviary, an ocean exhibit with a 270-degree coral reef tank, and a Florida Swamp highlighting our local ecosystems.

Guests encounter and interact with live animals in each biome, from tropical birds and bonnethead sharks to gopher tortoises and our beloved sloth, Izzy. *Life* uses hands-on experiential learning to increase visitors' science and climate literacy, raise awareness about timely environmental crises, and empower our visitors to become stewards and protectors of our planet. Presenting an engaging and immersive experience inspires a personal connection with our visitors, allowing our community to immediately take steps to protect our fragile ecosystem and steward long-term conservation efforts. OSC's expertise in informal education techniques is the spark that ignites innovation and drives change for the next generation.

Life's Journey

Construction for *Life* officially began June 2022 navigating through a variety of construction challenges that accompanied Life's demanding journey. OSC's team worked tirelessly through challenges directly following the pandemic, such as sub-contractor coordination, zoological consultant coordination, all while working within a building that is open to the public. As the ripple effect of the pandemic impacted the supply chain, our team kept it all moving forward facing each hurdle and interruption head-on.

Life's Future

OSC leadership has projected a significant attendance growth, due to *Life's* opening, which translates to about \$1.4M of revenue from walk-in traffic during the first 4 months of grand opening. This projection represents an increase of about \$400,000 more in revenue from that same quarter in FY2023, but this is only part of the potential growth as membership is projected to increase as well. With the additional revenue driven primarily by the exhibit and traditional year-over-year growth, we will be able to fully cover the accompanying increase in facility, staffing, and animal care needs.

To enhance the revenue that the exhibit will provide, we will also continue to actively pursue grants and partnerships to offset costs associated with new programs within the space. Furthermore, given *Life* 's environmental message and call to action, we foresee new funding opportunities opening with organizations that specifically support nature-based causes and projects.

Life's Impact

OSC is confident that *Life* will have a powerful impact on guests for years to come. We anticipate at least a 25% increase in visitors' understanding of the challenges facing our environment, knowledge of conservation efforts in the region, and what actions they can take to improve conservation and sustainability efforts. During the inaugural year of *Life*, OSC will collect data such as visitor feedback through written and electronic surveys.

Goal:

The goal of our project is to provide accessible and educational immersive learning experiences that help people discover and value our important ecosystems, connect with conservation efforts, and better understand the role of science in everyday life.

Outcomes:

We will increase visitors' understanding of the challenges facing our environment by presenting relevant and timely information to visitors through impactful experiences.

Visitors will be able to connect with conservation efforts and be motivated to take action as they experience interactive programming, animal encounters, and educational opportunities. People of all ages will learn how to get involved with groups and causes that are relevant to them, as *Life* will serve as a hub for a variety of conservation efforts in the region.

	excess parachute payment(s) during the year?		15		X
	If "Yes," see the instructions and file Form 4720, Schedule N.				
16	Is the organization an educational institution subject to the section 4968 excise tax on net investment income?		16		X
	If "Yes," complete Form 4720, Schedule O.				
17	Section 501(c)(21) organizations. Did the trust, or any disqualified or other person engage in any activities				
	that would result in the imposition of an excise tax under section 4951, 4952 or 4953?		17		
	If "Yes," complete Form 6069.				

Part VI Governance, Management, and Disclosure. For each "Yes" response to lines 2 through 7b below, and for a "No" response to line 8a, 8b, or 10b below, describe the circumstances, processes, or changes on Schedule O. See instructions.

	Check if Schedule O contains a response or note to any line in this Part VI			X
Sec	tion A. Governing Body and Management			
			Yes	No
1a	Enter the number of voting members of the governing body at the end of the tax year 41			
	If there are material differences in voting rights among members of the governing body, or if the governing			
	body delegated broad authority to an executive committee or similar committee, explain on Schedule O.			
b	Enter the number of voting members included on line 1a, above, who are independent			
2	Did any officer, director, trustee, or key employee have a family relationship or a business relationship with any other			
	officer, director, trustee, or key employee?	2		х
3	Did the organization delegate control over management duties customarily performed by or under the direct supervision			
	of officers, directors, trustees, or key employees to a management company or other person?	3		X
4	Did the organization make any significant changes to its governing documents since the prior Form 990 was filed?	4		Х
5	Did the organization become aware during the year of a significant diversion of the organization's assets?	5		Х
6	Did the organization have members or stockholders?	6		Х
7a	Did the organization have members, stockholders, or other persons who had the power to elect or appoint one or			
	more members of the governing body?	7a		X
b	Are any governance decisions of the organization reserved to (or subject to approval by) members, stockholders, or			
	persons other than the governing body?	7b		X
8	Did the organization contemporaneously document the meetings held or written actions undertaken during the year by the following:			
а	The governing body?	8a	Х	
	Each committee with authority to act on behalf of the governing body?	8b	Х	
9	Is there any officer, director, trustee, or key employee listed in Part VII, Section A, who cannot be reached at the			
	organization's mailing address? If "Yes," provide the names and addresses on Schedule O	9		X
Sec	tion B. Policies (This Section B requests information about policies not required by the Internal Revenue Code.)			
			Yes	No
10a	Did the organization have local chapters, branches, or affiliates?	10a		Х
b	If "Yes," did the organization have written policies and procedures governing the activities of such chapters, affiliates,			
	and branches to ensure their operations are consistent with the organization's exempt purposes?	10b		
11a	Has the organization provided a complete copy of this Form 990 to all members of its governing body before filing the form?	11a	X	
b	Describe on Schedule O the process, if any, used by the organization to review this Form 990.			
12a	Did the organization have a written conflict of interest policy? If "No," go to line 13	12a	Х	
b	Were officers, directors, or trustees, and key employees required to disclose annually interests that could give rise to conflicts?	12b	X	
С	Did the organization regularly and consistently monitor and enforce compliance with the policy? If "Yes," describe			
	on Schedule O how this was done	12c	Х	
13	Did the organization have a written whistleblower policy?	13	Х	
14	Did the organization have a written document retention and destruction policy?	14	X	
15	Did the process for determining compensation of the following persons include a review and approval by independent			
	persons, comparability data, and contemporaneous substantiation of the deliberation and decision?			
а	The organization's CEO, Executive Director, or top management official	15a	Х	
b	Other officers or key employees of the organization	15b		X
	If "Yes" to line 15a or 15b, describe the process on Schedule O. See instructions.			
16a	Did the organization invest in, contribute assets to, or participate in a joint venture or similar arrangement with a			
	taxable entity during the year?	16a		X
b	If "Yes," did the organization follow a written policy or procedure requiring the organization to evaluate its participation			
	in joint venture arrangements under applicable federal tax law, and take steps to safeguard the organization's			
	exempt status with respect to such arrangements?	16b		
Sec	tion C. Disclosure			
17	List the states with which a copy of this Form 990 is required to be filedFL			
18	Section 6104 requires an organization to make its Forms 1023 (1024 or 1024-A, if applicable), 990, and 990-T (section 501(c)(3)	only)	availal	ble
	for public inspection. Indicate how you made these available. Check all that apply.			
	Own website X Another's website X Upon request Other (explain on Schedule O)			
19	Describe on Schedule O whether (and if so, how) the organization made its governing documents, conflict of interest policy, and	finan	cial	
	statements available to the public during the tax year.			
20	State the name, address, and telephone number of the person who possesses the organization's books and records

Part VII Compensation of Officers, Directors, Trustees, Key Employees, Highest Compensated Employees, and Independent Contractors

Check if Schedule O contains a response or note to any line in this Part VII

Section A. Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees

- 1a Complete this table for all persons required to be listed. Report compensation for the calendar year ending with or within the organization's tax year.
- List all of the organization's **current** officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation. Enter -0- in columns (D), (E), and (F) if no compensation was paid.
 - List all of the organization's current key employees, if any. See the instructions for definition of "key employee."
- List the organization's five **current** highest compensated employees (other than an officer, director, trustee, or key employee) who received reportable compensation (box 5 of Form W-2, box 6 of Form 1099-MISC, and/or box 1 of Form 1099-NEC) of more than \$100,000 from the organization and any related organizations.

Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

- List all of the organization's **former** officers, key employees, and highest compensated employees who received more than \$100,000 of reportable compensation from the organization and any related organizations.
- List all of the organization's **former directors or trustees** that received, in the capacity as a former director or trustee of the organization, more than \$10,000 of reportable compensation from the organization and any related organizations. See the instructions for the order in which to list the persons above.

SCHEDULE A

(Form 990)

Department of the Treasury Internal Revenue Service

Public Charity Status and Public Support

Complete if the organization is a section 501(c)(3) organization or a section 4947(a)(1) nonexempt charitable trust. Attach to Form 990 or Form 990-EZ.

Open to Public Go to www.irs.gov/Form990 for instructions and the latest information.

Inspection

OMB No. 1545-0047

Employer identification number Name of the organization ORLANDO SCIENCE CENTER, INC. 59-0896343 Reason for Public Charity Status. (All organizations must complete this part.) See instructions. Part I The organization is not a private foundation because it is: (For lines 1 through 12, check only one box.) A church, convention of churches, or association of churches described in section 170(b)(1)(A)(i). A school described in section 170(b)(1)(A)(ii). (Attach Schedule E (Form 990).)

3 A hospital or a cooperative hospital service organization described in section 170(b)(1)(A)(iii). A medical research organization operated in conjunction with a hospital described in section 170(b)(1)(A)(iii). Enter the hospital's name, city, and state: An organization operated for the benefit of a college or university owned or operated by a governmental unit described in section 170(b)(1)(A)(iv). (Complete Part II.) 6 A federal, state, or local government or governmental unit described in section 170(b)(1)(A)(v). X An organization that normally receives a substantial part of its support from a governmental unit or from the general public described in section 170(b)(1)(A)(vi). (Complete Part II.) A community trust described in section 170(b)(1)(A)(vi). (Complete Part II.) An agricultural research organization described in section 170(b)(1)(A)(ix) operated in conjunction with a land-grant college or university or a non-land-grant college of agriculture (see instructions). Enter the name, city, and state of the college or 10 An organization that normally receives (1) more than 33 1/3% of its support from contributions, membership fees, and gross receipts from activities related to its exempt functions, subject to certain exceptions; and (2) no more than 33 1/3% of its support from gross investment income and unrelated business taxable income (less section 511 tax) from businesses acquired by the organization after June 30, 1975. See section 509(a)(2). (Complete Part III.) An organization organized and operated exclusively to test for public safety. See section 509(a)(4). 11 12 An organization organized and operated exclusively for the benefit of, to perform the functions of, or to carry out the purposes of one or more publicly supported organizations described in section 509(a)(1) or section 509(a)(2). See section 509(a)(3). Check the box on

lines 12a through 12d that describes the type of supporting organization and complete lines 12e, 12f, and 12g.

Type I. A supporting organization operated, supervised, or controlled by its supported organization(s), typically by giving the supported organization(s) the power to regularly appoint or elect a majority of the directors or trustees of the supporting organization. You must complete Part IV, Sections A and B. Type II. A supporting organization supervised or controlled in connection with its supported organization(s), by having

control or management of the supporting organization vested in the same persons that control or manage the supported organization(s). You must complete Part IV, Sections A and C.

Type III functionally integrated. A supporting organization operated in connection with, and functionally integrated with, its supported organization(s) (see instructions). You must complete Part IV, Sections A, D, and E.

Type III non-functionally integrated. A supporting organization operated in connection with its supported organization(s) that is not functionally integrated. The organization generally must satisfy a distribution requirement and an attentiveness requirement (see instructions). You must complete Part IV, Sections A and D, and Part V.

Check this box if the organization received a written determination from the IRS that it is a Type I, Type II, Type III functionally integrated, or Type III non-functionally integrated supporting organization.

Enter the number of supported organizations

Provide the following information about the supported organization(s). (i) Name of supported (ii) EIN (iii) Type of organization (v) Amount of monetary (vi) Amount of other your governing document? (described on lines 1-10 organization support (see instructions) support (see instructions) No above (see instructions)) Total

(Complete only if you checked the box on line 5, 7, or 8 of Part I or if the organization failed to qualify under Part III. If the organization fails to qualify under the tests listed below, please complete Part III.)

Part IV | Supporting Organizations

(Complete only if you checked a box on line 12 of Part I. If you checked box 12a, Part I, complete Sections A and B. If you checked box 12b, Part I, complete Sections A and C. If you checked box 12c, Part I, complete Sections A, D, and E. If you checked box 12d, Part I, complete Sections A and D, and complete Part V.)

Section A. All Supporting Organizations

- 1 Are all of the organization's supported organizations listed by name in the organization's governing documents? If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.
- 2 Did the organization have any supported organization that does not have an IRS determination of status under section 509(a)(1) or (2)? If "Yes," explain in **Part VI** how the organization determined that the supported organization was described in section 509(a)(1) or (2).
- **3a** Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? If "Yes," answer lines 3b and 3c below.
- **b** Did the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? If "Yes," describe in **Part VI** when and how the organization made the determination.
- c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? If "Yes," explain in Part VI what controls the organization put in place to ensure such use.
- **4a** Was any supported organization not organized in the United States ("foreign supported organization")? *If* "Yes," and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.
- **b** Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? If "Yes," describe in **Part VI** how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.
- c Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.
- 5a Did the organization add, substitute, or remove any supported organizations during the tax year? If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).
- b Type I or Type II only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?
- c Substitutions only. Was the substitution the result of an event beyond the organization's control?
- 6 Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? If "Yes," provide detail in Part VI.
- 7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? If "Yes," complete Part I of Schedule L (Form 990).
- 8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? If "Yes," complete Part I of Schedule L (Form 990).
- 9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? If "Yes," provide detail in Part VI.
- **b** Did one or more disqualified persons (as defined on line 9a) hold a controlling interest in any entity in which the supporting organization had an interest? If "Yes." provide detail in **Part VI.**
- c Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? If "Yes," provide detail in Part VI.
- 10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? If "Yes," answer line 10b below.
 - **b** Did the organization have any excess business holdings in the tax year? (Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)

Part VII Compensation of Officers, Directors, Trustees, Key Employees, Highest Compensated **Employees, and Independent Contractors**

Check if Schedule O contains a response or note to any line in this Part VII

Section A. Officers, Directors, Trustees, Key Employees, and Highest Compensated Employees

- 1a Complete this table for all persons required to be fisted. Report compensation for the calendar year ending with or within the organization's tax year,
- List all of the organization's current officers, directors, trustees (whether individuals or organizations), regardless of amount of compensation. Enter O in columns (D), (E), and (F) if no compensation was paid.
 - List all of the organization's current key employees, if any. See the instructions for definition of "key employees."
- List the organization's five current highest compensated employees (other than an officer, director, trustee, or key employee) who received reportable compensation (box 5 of Form W-2, Form 1099-MISC, and/or box 1 of Form 1099-NEC) of more than \$100,000 from the organization and any related organizations.
- List all of the organization's former officers, key employees, and highest compensated employees who received more than \$100,000 of reportable compensation from the organization and any related organizations.
- List all of the organization's former directors or trustees that received, in the capacity as a former director or trustee of the organization. more than \$10,000 of reportable compensation from the organization and any related organizations. See the instructions for the order in which to list the persons above.

Check this box if neither the organization nor any related organization compensated any current officer, director, or trustee.

Part IV Supporting Organizations

(Complete only if you checked a box in line 12 on Part I. If you checked box 12a, Part I, complete Sections A and B. If you checked box 12b, Part I, complete Sections A and C. If you checked box 12c, Part I, complete Sections A, D, and E. If you checked box 12d, Part I, complete Sections A and D, and complete Fart V.)

S	ection	A.	All	Supr	porting	Org	anizations

- 1 Are all of the organization's supported organizations listed by name in the organization's governing documents? If "No," describe in Part VI how the supported organizations are designated. If designated by class or purpose, describe the designation. If historic and continuing relationship, explain.
- 2 Did the organization have any supported organization that does not have an iRS determination of status under section 509(a)(1) or (2)? If "Yes," explain in Part VI how the organization determined that the supported organization was described in section 500(a)(1) or (2).
- 3a Did the organization have a supported organization described in section 501(c)(4), (5), or (6)? If "Yes," answer lines 3h and 3c below.
- b Old the organization confirm that each supported organization qualified under section 501(c)(4), (5), or (6) and satisfied the public support tests under section 509(a)(2)? If "Yes," describe in Part VI when and how the organization made the determination.
- c Did the organization ensure that all support to such organizations was used exclusively for section 170(c)(2)(B) purposes? If "Yes," explain in Part VI what controls the organization put in place to ensure such use.
- 4a Was any supported organization not organized in the United States ("foreign supported organization")? If "Yes," and if you checked box 12a or 12b in Part I, answer lines 4b and 4c below.
- b Did the organization have ultimate control and discretion in deciding whether to make grants to the foreign supported organization? If "Yes," describe in Part VI how the organization had such control and discretion despite being controlled or supervised by or in connection with its supported organizations.
- o Did the organization support any foreign supported organization that does not have an IRS determination under sections 501(c)(3) and 509(a)(1) or (2)? If "Yes," explain in Part VI what controls the organization used to ensure that all support to the foreign supported organization was used exclusively for section 170(c)(2)(B) purposes.
- Did the organization add, substitute, or remove any supported organizations during the tax year? If "Yes," answer lines 5b and 5c below (if applicable). Also, provide detail in Part VI, including (i) the names and EIN numbers of the supported organizations added, substituted, or removed; (ii) the reasons for each such action; (iii) the authority under the organization's organizing document authorizing such action; and (iv) how the action was accomplished (such as by amendment to the organizing document).
- b Type i or Type ii only. Was any added or substituted supported organization part of a class already designated in the organization's organizing document?
- c Substitutions only. Was the substitution the result of an event beyond the organization's control?
- Did the organization provide support (whether in the form of grants or the provision of services or facilities) to anyone other than (i) its supported organizations, (ii) individuals that are part of the charitable class benefited by one or more of its supported organizations, or (iii) other supporting organizations that also support or benefit one or more of the filing organization's supported organizations? If "Yes," provide detail in Part VI.
- 7 Did the organization provide a grant, loan, compensation, or other similar payment to a substantial contributor (as defined in section 4958(c)(3)(C)), a family member of a substantial contributor, or a 35% controlled entity with regard to a substantial contributor? If "Yes," complete Part I of Schedule L (Form 990).
- 8 Did the organization make a loan to a disqualified person (as defined in section 4958) not described on line 7? If "Yes," complete Part I of Schedule L (Form 990).
- 9a Was the organization controlled directly or indirectly at any time during the tax year by one or more disqualified persons, as defined in section 4946 (other than foundation managers and organizations described in section 509(a)(1) or (2))? If "Yes," provide detail in Part VI.
- b Did one or more disqualified persons (as defined on line Sa) hold a controlling interest in any entity in which the supporting organization had an interest? If "Yes," provide detail in Part VI.
- c Did a disqualified person (as defined on line 9a) have an ownership interest in, or derive any personal benefit from, assets in which the supporting organization also had an interest? If "Yes," provide detail in Part VI.
- 10a Was the organization subject to the excess business holdings rules of section 4943 because of section 4943(f) (regarding certain Type II supporting organizations, and all Type III non-functionally integrated supporting organizations)? If "Yes," answer line 10b below.
 - b Did the organization have any excess business holdings in the tax year? (Use Schedule C, Form 4720, to determine whether the organization had excess business holdings.)

 Go to www.irs.gov/Form990 for the latest information.

OMB No. 1545-0047

2021

Schedule 8 (Form 990) (2021)

Name of the organization Employer identification number 59-0896343 ORLANDO SCIENCE CENTER, INC Organization type (check one): Filers of: Section: 501(c)(3) (enter number) organization Form 990 or 990-EZ 4947(a)(1) nonexempt charitable trust not treated as a private foundation 527 political organization Form 990-PF 501(c)(3) exempt private foundation 4947(a)(1) nonexempt charitable trust treated as a private foundation 501(c)(3) taxable private foundation Check if your organization is covered by the General Rule or a Special Rule. Note: Only a section 501(c)(7), (8), or (10) organization can check boxes for both the General Rule and a Special Rule. See instructions. General Rule I For an organization filing Form 990, 990-EZ, or 990-PF that received, during the year, contributions totaling \$5,000 or more (in money or property) from any one contributor. Complete Parts I and II. See instructions for determining a contributor's total contributions. Special Rules For an organization described in section 501(c)(3) filing Form 990 or 990-EZ that met the 33 1/3% support test of the regulations under sections 509(s)(1) and 170(b)(1)(A)(vi), that checked Schedule A (Form 990), Part II, line 13, 16a, or 16b, and that received from any one contributor, during the year, total contributions of the greater of (1) \$5,000; or (2) 2% of the amount on (i) Form 990, Part VIII, line 1h; or (ii) Form 990-EZ, line 1. Complete Parts I and II. I For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, total contributions of more than \$1,000 exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals. Complete Parts I (entering "N/A" in column (b) instead of the contributor name and address), ii, and iii. 📑 For an organization described in section 501(c)(7), (8), or (10) filing Form 990 or 990-EZ that received from any one contributor, during the year, contributions exclusively for religious, charitable, etc., purposes, but no such contributions totaled more than \$1,000. If this box is checked, enter here the total contributions that were received during the year for an exclusively religious, charitable, etc., purpose. Don't complete any of the parts unless the General Rule applies to this organization because it received nonexclusively religious, charitable, etc., contributions totaling \$5,000 or more during the year Caution: An organization that isn't covered by the General Rule and/or the Special Rules doesn't file Schedule B (Form 990), but it must answer "No" on Part IV, line 2, of its Form 990; or check the box on line H of its Form 990-EZ or on its Form 990-PF, Part I, line 2, to certify that it doesn't most the filing requirements of Schedule B (Form 990).

LHA For Paperwork Reduction Act Notice, see the instructions for Form 990, 990-EZ, or 990-FF.

Schedule D (Form 990) 2021

ENTITIES ARE REQUIRED TO EVALUATE AND DISCLOSE INCOME TAX RISKS. TOPIC
740 CLARIFIES THE ACCOUNTING FOR UNCERTAINTY IN TAX POSITIONS AND
PRESCRIBES GUIDANCE RELATED TO THE FINANCIAL STATEMENT RECOGNITION AND
MEASUREMENT OF A TAX POSITION TAKEN OR EXPECTED TO BE TAKEN IN A TAX
RETURN. THE TAX BENEFIT FROM AN UNCERTAIN TAX POSITION IS ONLY RECOGNIZED
IN THE STATEMENT OF FINANCIAL POSITION IF THE TAX POSITION IS MORE LIKELY
THAN NOT TO BE SUSTAINED UPON AN EXAMINATION, BASED ON THE TECHNICAL
MERITS OF THE POSITION. INTEREST AND PENALTIES, IF ANY, ARE INCLUDED IN
EXPENSES IN THE STATEMENT OF ACTIVITIES. AS OF JUNE 30, 2022, OSC HAD NO
UNCERTAIN TAX POSITIONS THAT QUALIFY FOR RECOGNITION OR DISCLOSURE IN THE

OSC'S INCOME TAX RETURNS ARE SUBJECT TO REVIEW AND EXAMINATION BY FEDERAL AUTHORITIES. OSC IS NOT AWARE OF ANY ACTIVITIES THAT WOULD JEOPARDIZE ITS TAX-EXEMPT STATUS. OSC IS NOT AWARE OF ANY ACTIVITIES THAT ARE SUBJECT TO TAX ON UNRELATED BUSINESS INCOME, EXCISE OR OTHER TAXES. THE TAX RETURNS FOR THE FISCAL YEARS ENDED FROM 2019 TO 2021 ARE OPEN TO EXAMINATION BY FEDERAL AUTHORITIES.

THE 990 IS EMAILED TO THE CFO, CONTROLLER, AND BOARD MEM	BERS FOR COMMENTS
AND/OR POSSIBLE CHANGES BEFORE IT IS SIGNED AND FILED WI	TH THE IRS.
FORM 990, PART VI, SECTION B, LINE 12C:	
AN ORLANDO SCIENCE CENTER TRUSTEE, STAFF MEMBER, OR VOLU	NTEER SHOULD
CONDUCT ALL OF HIS OR HER ACTIVITIES, INCLUDING THOSE RE	LATING TO PERSONS
OR BUSINESSES WITH WHOM THE PERSON IS CLOSELY ASSOCIATED	, IN SUCH A WAY
THAT NO CONFLICT WILL ARISE BETWEEN THE OTHER INTERESTS	AND THE POLICIES,
OPERATIONS OR INTERESTS OF THE SCIENCE CENTER. THE APPE	ARANCE OF SUCH
CONFLICT SHOULD ALSO BE AVOIDED. ORLANDO SCIENCE CENTER	TRUSTEES, STAFF,
OR VOLUNTEERS SHOULD NOT ASSOCIATE THE SCIENCE CENTER WI	TH ANY PERSONAL
POLITICAL ACTIVITIES. OSC IS PROHIBITED BY LAW FROM PAR	TICIPATION IN
POLITICAL CAMPAIGNS. TRUSTRES, STAFF AND VOLUNTEERS ARE	PROHIBITED FROM
USING THE ORGANIZATION'S NAME IN CONNECTION WITH ANY POL	ITICAL ACTIVITY.
WHEN ORLANDO SCIENCE CENTER TRUSTEES SEEK STAFF ASSISTAN	CE FOR PERSONAL
NEEDS THEY SHOULD NOT EXPECT THAT SUCH HELP WILL BE REND	ERED TO AN EXTENT

ORLANDO SCIENCE CENTER, INC.

Employer identification number 59-0896343

GREATER THAN THAT AVAILABLE TO A MEMBER OF THE GENERAL PUBLIC IN SIMILAR CIRCUMSTANCES OR WITH SIMILAR NEEDS. OSC BELIEVES THAT THE MOST PRICELESS ASSET OF AN EMPLOYEE, OR OF THE ORGANIZATION, IS ITS INTEGRITY. OSC FULLY EXPECTS THAT ALL EMPLOYEES OBSERVE THE HIGHEST PROFESSIONAL ETHICAL STANDARDS IN DEALINGS IN WHICH THEY REPRESENT THE CENTER. IN THE SAME FASHION, OSC EXPECTS THAT ALL EMPLOYEES, IN THEIR REPRESENTATION OF THE ORGANIZATION, AVOID ACTIVITIES THAT CREATE A CONFLICT OF INTEREST WITH THEIR RESPONSIBILITIES TO THE CENTER. IT IS THE EMPLOYEE'S DUTY TO FOLLOW THE GUIDELINES ABOUT CONFLICTS OF INTEREST. IF THIS IS NOT CLEAR TO THE EMPLOYEE OR IF THERE ARE QUESTIONS ABOUT CONFLICTS OF INTEREST, THE EMPLOYEE IS TO CONTACT THE HUMAN RESOURCES DEPARTMENT.

A CONFLICT OF INTEREST IS NOT EASY TO DEFINE. IT REFERS TO ACTIONS,
BEHAVIORS OR DECISIONS THAT ARE CONTRADICTORY TO THE BEST INTERESTS OF OSC.

CONFLICTS OF INTEREST MAY INCLUDE, BUT ARE NOT LIMITED TO:

- 1. PERFORMING NON-OSC WORK DURING REGULAR WORK HOURS.
- 2. USES OF OSC PROJECTS, PROGRAMS, EXHIBIT PLANS, MATERIAL, EQUIPMENT,

 SOFTWARE, HARDWARE, SUPPLIES AND/OR EMPLOYEES FOR PERSONAL OR NON-OSC

 REASONS OR PROJECTS.
- 3. ENTERING INTO AGREEMENTS OR CONTRACTS WITH OUTSIDE SUPPLIERS, VENDORS,
 CANDIDATES FOR EMPLOYMENT, ETC., WHICH RESULT IN PERSONAL FINANCIAL GAIN,
 REWARD, SPECIAL STATUS OR PERSONAL FAVORS FOR THE OSC EMPLOYEE INVOLVED IN
 THE TRANSACTION.
- 4. USING ONE'S POSITION AT OSC TO ENHANCE ONE'S POSITION, STATUS, OR FINANCIAL GAIN AT THE EXPENSE OF, OR TO THE DETRIMENT OF OSC.

ORLANDO SCIENCE CENTER, INC.

Employer identification number 59-0896343

IF THERE IS ANY INFLUENCE ON TRANSACTIONS INVOLVING PURCHASES, CONTRACTS, OR LEASES, EMPLOYEES MUST TELL THEIR DIRECT SUPERVISOR OR THE HUMAN RESOURCES DEPARTMENT AS SOON AS POSSIBLE. BY DISCLOSING THERE IS THE POSSIBILITY OF AN ACTUAL OR POTENTIAL CONFLICT OF INTEREST, SAFEGUARDS CAN BE SET UP TO PROTECT EVERYONE INVOLVED. EMPLOYEES WHO ARE REQUESTED TO PERFORM CONSULTING, ADVISORY OR OTHER PROFESSIONAL SERVICES FOR OTHER ORGANIZATIONS ARE REQUIRED TO OBTAIN WRITTEN APPROVAL FROM THE OSC PRESIDENT / CEO, IN ORDER TO AVOID JEOPARDIZING THE CENTER'S PROPRIETARY MATERIAL OR RISKING THE CENTER'S COMPETITIVE POSITION. ALL SALARIED EMPLOYEES MUST REPORT OUTSIDE ACTIVITIES TO HUMAN RESOURCES. VIOLATION OF THIS PROCEDURE MAY RESULT IN DISCIPLINARY ACTION UP TO AND INCLUDING TERMINATION OF EMPLOYMENT.

OTHER INSTANCES OF REPRESENTATIVE CONFLICTS OF INTEREST:

OSC RECOGNIZES AND RESPECTS EACH EMPLOYEE'S RIGHT TO PRIVACY AND TO ENGAGE IN PERSONAL ACTIVITIES OUTSIDE THE SCOPE OF HIS/HER EMPLOYMENT WITH THE CENTER.

- 1. OUTSIDE EMPLOYMENT NO EMPLOYEE OF OSC SHALL ACCEPT SIMULTANEOUS EMPLOYMENT WITH ANOTHER ORGANIZATION WHEN THAT EMPLOYMENT WOULD PRESENT A CONFLICT OF INTEREST. SUCH CONFLICT WOULD BE MOST LIKELY IF THE OTHER ORGANIZATION IS A COMPETITOR OR SUPPLIER. A CONFLICT MAY ALSO ARISE IF THE HOURS OR CONDITIONS OF THE OTHER JOB INTERFERE WITH THE EMPLOYEE'S JOB PERFORMANCE AT OSC.
- 2. PROTECTING TRADE SECRETS OSC HAS DEVELOPED SPECIAL WAYS TO DEVELOP. PRODUCE, AND MARKET ITS SERVICES AND PRODUCTS. EMPLOYEES HAVING ACCESS TO

Independent Auditor's Report

The Board of Trustees Orlando Science Center, Inc.:

Opinion

We have audited the accompanying financial statements of Orlando Science Center, Inc. (a nonprofit corporation), which comprise the statement of financial position as of June 30, 2023, and the related statements of statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Orlando Science Center, Inc. as of June 30, 2023, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Orlando Science Center, Inc. and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Orlando Science Center, Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that individually, or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Orlando Science Center, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Orlando Science Center, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Report on Summarized Comparative Information

We have previously audited Orlando Science Center, Inc.'s financial statements and we expressed an unmodified audit opinion on those audited financial statements in our report dated October 21, 2022. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2022, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated October 10, 2023 on our consideration of the Orlando Science Center, Inc's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Orlando Science Center, Inc.'s internal control over financial reporting and compliance.

Notes to Financial Statements

June 30, 2023

(1) Summary of Significant Accounting Policies

(a) Organization and Nature of Business

Orlando Science Center, Inc. (OSC or the Organization) is a private, not-for-profit, tax-exempt, informal science education institution affiliated with the Association of Science Technology Centers and accredited by the American Association of Museums. OSC is also designated as a Major Cultural Institution by the State of Florida. A resource for lifelong learning, the Science Center's mission is "inspire science learning for life."

The Orlando Science Center also operates a Preschool, licensed by the Department of Children and Families (DCF) and is an approved Voluntary Pre-Kindergarten (VPK) facility.

(b) **Program Services**

OSC's many experiential venues (exhibits, live interpretive programs, school programs, labs, classes, and theaters) integrate informal learning techniques into interpretive delivery methods and messages. OSC offers resources for lifelong learning, supports pre-K-12 school curricula, and provides exhibit and program content that is relevant to the science, technology, engineering, and math (STEM) learning and workforce skills needed by the community's knowledge industries. On-site exhibits, education services and live programs focus on basic principles and processes of science and technology and how those principles and processes relate to daily life. Off-site programs complement and extend OSC's program experience throughout the Central Florida area. To those ends, OSC's experiential venues are designed to inspire and engage visitors through interaction, as follows:

Exhibitions – Core exhibit halls explore scientific content and processes behind topics of significance to Central Florida business, education, government, and philanthropic partners. Core exhibits include *NatureWorks*, which explores the flora and fauna of six of the region's common habitats; *Kinetic Zone*, which explores the fundamentals of forces, such as electricity, gravity, and Newton's Laws. *KidsTown* stimulates the hands-on creative play recognized by experts as important to the cognitive development of young children. *Dino Digs* explores paleontology and features fossil casts of the giant prehistoric creatures. *Our Planet, Our Universe* explores the mysteries of space as well as the dynamic forces and systems that shape our Earth. *The Hive: A Makerspace* is a collaborative workspace for making, learning, exploring, and sharing. Guests have access to real tools, materials and mentors that will help turn creative ideas into reality.

CineDome, Observatory and Digital Adventure Theater – The 240-seat Dr. Phillips CineDome combines 15/70mm large format film technology with a Digistar II projection system to offer visitors giant screen film shows in the domed venue.

The Digital Adventure Theater's updated technology includes a 4K resolution Christie dual

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(b) Program Services (Continued)

2D/3D Digital Cinema Projector, High Definition (HD) capable, with a Dolby 7.1 sound system. To transition to full digital quality, a motorized Digital Cinema Screen by Severtson was installed. The screen, measuring 28.5' by 15.25', is retractable when the proscenium stage is used for live performances.

The theater, designed with the global theater industry standard in mind, delivers outstanding cinema experiences. Families can experience educational movies such as *Secrets of the Universe* or *Wings Over Water*. With its webcasting and videoconferencing capabilities, adults and schoolchildren can watch remote broadcasts from space and undersea, hospital operating rooms, high technology manufacturing sites, or research facilities.

The digital theater is also used for "big bang" science shows and demonstrations as well as a forum for guest scientists and presenters serving up to 250 guests. The upgraded theater enables the Science Center to present outstanding education programs, attract new audiences, and provide a unique space for varied arts and cultural performances.

The Crosby Observatory features Central Florida's largest refractor telescope and is often the site for community observances of astronomical events.

Education Services and Live Programs – On-site demonstrations, programs, labs, exhibit experiences for area schools' field trip students, professional development programs for teachers, lifelong learning opportunities via a variety of camps and classes, and participatory demonstrations are offered for visitors of all ages. Off-site programs bring classroom and assembly-type programs to students and their parents at local schools, libraries, and other educational and cultural venues.

In 2022-2023, the Orlando Science Center Preschool served 72 students. The Preschool provides a safe, hands-on, play-based nurturing environment. The curriculum is based on the standards of the National Association for the Education of Young Children (NAEYC), the Florida Department of Education's Standards for Three- to Five-Year-Olds, STEM objectives, and Teaching Strategies *Creative Curriculum*. OSC's Preschool provides an educational setting that identifies and meets individual learning styles while stimulating progression at a child's own pace. Science, math, literacy, music, art, and motor development are regular topics in the Preschool curriculum.

School readiness is a top priority at OSC's Preschool as a Department of Children and Families licensed child care center. The Preschool is also an approved Voluntary Pre-Kindergarten (VPK) provider for the Early Learning Coalition of Orange County. Classes are provided for ages 3-5 with age/developmental-appropriate practices and activities. The staff is Level 2 Background screened, trained in First Aid/CPR, and credentialed in Early Childhood/Elementary teaching with yearly in-service training in classroom management, STEM, and related topics.

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(c) Income Taxes

OSC is exempt from federal income tax under a provision of Section 501(c)(3) of the Internal Revenue Code. In addition, OSC has been determined by the Internal Revenue Service not to be a private foundation within the meaning of Section 509(a) of the Code. Consequently, no provision for income taxes has been included in the accompanying financial statements.

In accordance with *Income Taxes* Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 740 (Topic 740), all entities are required to evaluate and disclose income tax risks. Topic 740 clarifies the accounting for uncertainty in tax positions and prescribes guidance related to the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The tax benefit from an uncertain tax position is only recognized in the statement of financial position if the tax position is more likely than not to be sustained upon an examination, based on the technical merits of the position. Interest and penalties, if any, are included in expenses in the statement of activities. As of June 30, 2023, OSC had no uncertain tax positions that qualify for recognition or disclosure in the financial statements.

OSC's income tax returns are subject to review and examination by federal authorities. OSC is not aware of any activities that would jeopardize its tax-exempt status. OSC is not aware of any activities that are subject to tax on unrelated business income, excise or other taxes. The tax returns for the fiscal years ended from 2020 to 2022 are open to examination by federal authorities.

(d) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting and represent the financial position and results of operations of OSC.

OSC adopted Accounting Standards Update ("ASU") 2014-06, Presentation of Financial Statements of Not-for-Profit Entities (Topic 958), for the year ended June 30, 2019. This standard was issued by FASB to improve the previous net asset classification requirements and the information presented in the financial statements and notes about a not-for-profits entity's liquidity, financial performance, and cash flows. ASU 2014-06 reduces the number of net asset classifications from three to two: with donor restrictions and without donor restrictions. The ASU also requires not-for-profits to report expenses by functional and natural classification in one location in the financial statements or accompanying disclosures and requires not-for-profits to report quantitative and qualitative information about management of liquidity resources and availability of financial assets.

These financial statements are prepared on an entity-wide basis, focusing on the organization as a whole and present balances and transactions according to the existence or absence of

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(d) Basis of Accounting (Continued)

donor-imposed restrictions. This has been accomplished by aggregating all funds into one set of financial statements and classifying fund balances and transactions into two classes of net assets – without donor restrictions and with donor restrictions as follows:

Without Donor Restrictions	With Donor Restrictions	Total
\$ 13,134,716	18,365,795	31,500,511

Categories presented in the statement of activities are as follows:

- Without Donor Restrictions Net assets which are free of donor-imposed restrictions; all
 revenues, expenses, gains and losses that are not changes in donor restricted assets. OSC
 reports donor-restricted contributions whose restrictions are met in the same reporting
 period as unrestricted support. Additionally, OSC reports gifts of property, equipment
 and exhibits as unrestricted support unless explicit donor stipulations specify how the
 donated assets must be used.
- With Donor Restrictions Net assets whose use by OSC is limited by donor-imposed stipulations that either expire by passage of time or that can be fulfilled by actions of OSC pursuant to those stipulations. In addition, net assets with donor-imposed stipulations that they be maintained in perpetuity by OSC for the preservation and general maintenance of OSC and its exhibits. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, OSC reports expirations of donor restrictions when the donated or acquired long-lived assets are placed in service.

Under generally accepted accounting principles, contributions are generally recognized as revenue when the gift is made and are recorded as with or without donor restrictions, depending on the presence or absence and type of donor-imposed restrictions or conditions.

OSC also adopted ASU 2018-08, Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made, for the year ended June 30, 2019. The FASB issued this new standard to clarify and improve the scope and the accounting guidance for contributions received and made, including guidance to help an entity evaluate whether transactions should be accounted for as contributions (nonreciprocal transactions) or as exchange (reciprocal) transactions and determine whether a contribution is conditional. As required by ASU 2018-08, OSC applied the requirements on a modified prospective basis to agreements that either are not completed as of July 1, 2018 or entered into after July 1, 2018. Upon adoptions of ASU 2018-08, OSC determined that certain contracts and grants previously treated as exchange transactions meet the new definition of conditional contributions.

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(d) Basis of Accounting (Continued)

Revenue and other support are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses and losses are reported as decreases in net assets without donor restrictions unless their use is limited by donor-imposed restrictions. Expirations of donor restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets. Donor-restricted contributions whose restrictions are met in the same reporting period are reported as unrestricted support.

Pledges are recorded as unconditional promises to give in the period that notification is received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. OSC also receives indications of intent to support, which are commitments that are open-ended and subject to unilateral change by the donor. The amounts are not measurable since the commitments do not express a term or period. Thus, they are not considered to be unconditional promises to give and are not recognized prior to the receipt of the contribution.

(e) <u>Use of Estimates</u>

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(f) Concentration of Credit Risk

Financial instruments which potentially subject OSC to concentration of credit risk consist principally of cash and short-term investments. OSC places its cash and investments with PNC Bank and other banks. At certain times throughout the year, cash and investments may exceed federally insured limits. OSC has not experienced any losses in such accounts. OSC management believes it is not exposed to any significant credit risk on cash and temporary cash investments.

(g) Restricted Cash

Cash which is externally restricted by agreements is classified as restricted cash. Such cash is excluded from the statements of cash flows as it is not available for general operating purposes. Restricted cash as of June 30, 2023 was restricted for the following purposes:

Comprehensive Campaign	\$ 3,166,508
Educational & Community Programs	246,250
Total	\$ 3,412,758

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(g) Restricted Cash (Continued)

As of July 1, 2019, the Organization adopted ASU-2016-18, *Statement of Cash Flows Topic 230*): Restricted Cash, which requires that restricted cash and cash equivalents be included in beginning and ending cash in the statement of cash flows.

(h) Unconditional Promises to Give

Unconditional promises to give, less an allowance for uncollectible accounts, are recognized as revenues in the period received. Pledges are discounted, using a market discount rate, to present value for collections expected in future years. Accretion of the discount in subsequent years is also recorded as contribution revenue.

(i) **Investments**

OSC has adopted accounting standards in which investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statements of financial position. Unrealized gains and losses are included in the change in net assets. Investment income and gains restricted by a donor are reported as increases in net assets without donor restrictions if the restrictions are met (either by passage of time or by use) in the reporting period in which the income and gains are recognized.

(j) Endowments

The Board of Trustees of OSC has interpreted the Florida Uniform Prudent Management of Institutional Funds Act (FUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization recognizes as net assets with donor restrictions (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund is classified as net assets with donor restriction until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by FUPMIFA. In accordance with FUPMIFA, the Organization considers the following factors in determining to appropriate or accumulate donor-restricted endowment funds:

- 1. The duration and preservation of the fund
- 2. The purposes of the organization and the donor-restricted endowment fund
- 3. General economic conditions
- 4. The possible effect of inflation and deflation
- 5. The expected total return from income and the appreciation of investments
- 6. Other resources of the organization
- 7. The investment policies of the organization

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(j) Endowments (Continued)

Return Objectives and Risk Parameters

The Organization has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Under this policy the endowment assets are invested in a manner that focuses on long-term capital appreciation while achieving predictable and modest current income requirements.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term objectives with prudent risk constraints.

Spending Policies and How the Investment Objectives Relate to Spending Policies

Endowments are established to preserve principal and generate an income stream to support the purpose of the funds held. A spending policy establishes a reasonable, sustainable, consistent and predictable expenditure level which enables the Organization to use endowment earnings to support its operations, while ensuring that the principal value of the endowment is maintained and protected from the effects of inflation.

The Organization has established a policy that investment income from endowments is used to support its operations. Investment income from endowments to be used to support its operations is determined by investment earnings on endowments, net of any realized gains or losses. The original principal in the restricted endowment is investment in perpetuity and thus is not available to fund any draws.

(k) Collections

OSC will capitalize collections only if the value is material. If purchased, items accessioned into the collection are capitalized at cost, and if donated, they are capitalized at their appraised or fair value on the accession date (the date on which the item is accepted by the Board of Trustees). Gains or losses on the deaccession of collection items are classified on the statement of activities depending on donor restrictions, if any, placed on the item at the time of accession.

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(l) Contributed Assets, Materials, Facilities and Services

Contributions of assets, materials, and facilities are recorded at their estimated fair value at the date of gift. Donated securities are sold immediately upon receipt unless otherwise restricted by the donor. Such values are recorded in the financial statements as an asset or expense and revenue. In addition, OSC receives contributed time related to various program, administrative or fundraising services. These contributed services are recorded at their estimated fair value at the date of service if they meet the following criteria: (a) the services would have otherwise been purchased by OSC, and (b) the services required specialized skills. Donated assets, materials, facilities, and services have been recorded as contribution revenue as of June 30, 2023 and 2022, in the amounts of \$158,916 and \$302,405, respectively, in the accompanying statements of activities. Expenses associated with these contributions have been recorded as of June 30, 2023 and 2022, in the amounts of \$158,916 and \$302,405, respectively, in the statements of activities.

A substantial number of unpaid volunteers have made significant contributions of their time toward the mission and vision of OSC. The value of this contributed time is not reflected in these statements since it is not susceptible to objective measurement of valuation. During fiscal 2023 and 2022, approximately 30,723 and 26,126 hours of service were provided to OSC, respectively.

(m) Advertising

OSC expenses advertising costs when the advertisement occurs. Total advertising expense amounted to approximately \$607,000 and \$650,000 in 2023 and 2022, respectively.

(n) Memberships

Individuals, families, and corporations support OSC through the purchase of memberships which entitle the member to certain benefits including admission privileges. Revenue from memberships is recognized as income ratably over the annual membership period. Unexpired unrestricted membership revenue is deferred and reported as deferred revenue in the accompanying statements of financial position.

(o) Fair Value Measurements

OSC has adopted accounting standards for fair value measurements, which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements of assets and liabilities to include disclosure about inputs used in the determination of fair value using the three categories listed below. These accounting standards apply under other accounting pronouncements previously issued by the FASB, which require or permit fair value measurements. The adoption of the provisions of the new accounting standards did not impact financial position or results of operations.

Notes to Financial Statements

(1) **Summary of Significant Accounting Policies (Continued)**

(o) Fair Value Measurements (Continued)

Fair value is defined under *Fair Value Measurements and Disclosures*, FASB Accounting Standards Codification Topic 820 (Topic 820) as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. Topic 820 also establishes a three-level hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels of inputs to the valuation methodology are:

Level 1: quoted prices (unadjusted) for identical assets or liabilities in an active market

Level 2: quoted prices for similar assets and liabilities in active markets or value-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability

Level 3: unobservable and significant to the fair value measurement of the asset or liability

The Organization's financial instruments measured at fair value on a recurring basis subject to the disclosure requirements of Topic 820 at June 30, 2023, were as follows:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value as of June 30, 2023
Cash	\$ 15,784	-	-	15,784
Fixed Income	677,879	-	-	677,879
Equity:				
U.S. Large Equity	748,146	-	-	748,146
U.S. Small Equity	364,392	-	-	364,392
Non-U.S. Equity (Large)	413,157	-	-	413,157
Non-U.S. Equity (Small)	188,360	-	-	188,360
Non-U.S. Equity (Emerging)	139,582	-	-	139,582
Real Estate Securities	85,488			85,488
Endowment Fund Investments	\$ 2,632,788			2,632,788

OSC's financial instruments are cash and cash equivalents, prepaid expenses, accounts receivable, contributions receivable, accounts payable, accrued expenses, and investments. The carrying amounts of cash and cash equivalents, deferred revenue, prepaid expenses, accounts receivable, short-term contributions receivable, accounts payable, and accrued expenses, approximate their fair value based on their short-term nature.

Notes to Financial Statements

(1) Summary of Significant Accounting Policies (Continued)

(o) Fair Value Measurements (Continued)

The recorded net present value of contributions receivable approximates fair value, as the discount rate approximates market rates.

The recorded value of investments approximates fair value based on quoted market prices (Level 1 inputs) in active markets for identical assets or liabilities (see note 2).

(p) Functional Allocation of Expenses

OSC's primary program service is operating and maintaining its core exhibit halls, theaters, live programming, and educational services.

	2023			2022	
	Program	Occupancy	Management, General, and Development	Total	Total
Salaries, wages, and benefits	\$ 5,780,895	255,077	1,644,709	7,680,681	6,299,935
Occupancy and office expense	722,550	995,721	29,564	1,747,835	1,443,001
Exhibits and programming	1,419,623	22,183	16,804	1,458,610	1,202,631
Services and professional fees	778,605	222,674	158,278	1,159,557	742,970
Advertising	477,345	10	10,263	487,618	415,008
Other and indirect cost allocation	766	-	29,490	30,256	991
Subtotal	9,179,784	1,495,665	1,889,108	12,564,557	10,104,536
Contributed materials, facilities					
and services	158,916	-	-	158,916	302,405
Depreciation		1,314,486		1,314,486	1,370,267
Total expenses	\$ 9,338,700	2,810,151	1,889,108	14,037,959	11,777,208

(q) Subsequent Events - Auditor Update

In preparing these financial statements, OSC has evaluated subsequent events and transactions for potential recognition and disclosure through October 10, 2023, which is the date the financial statements were available to be issued.

Notes to Financial Statements

(2) Endowment Fund Investments

Endowment fund investments as of June 30, 2023, are summarized as follows:

	Cost	Market Value
Cash	\$ 15,784	15,784
Fixed Income	688,724	677,879
Equity:		
U.S. Large Equity	767,961	748,146
U.S. Small Equity	390,647	364,392
Non-U.S. Equity (Large)	422,864	413,157
Non-U.S. Equity (Small)	212,813	188,360
Non-U.S. Equity (Emerging)	165,470	139,582
Real Estate Securities	101,024	85,488
Grand Total All OSC Endowment Funds	\$ 2,765,287	2,632,788

The following schedule summarizes the investment return from endowment funds and interest income from working reserves and other interest earning cash accounts and their classification in the statement of activities for the year ended June 30, 2023:

Net realized and unrealized income	\$ 189,094
Investment income or (loss) from endowment funds, net	189,094
Net realized and unrealized income or (loss) from working reserves and interest-earning cash accounts	150,120
Total investment income or (loss), net and other interest income	\$ 339,214

(3) Pledges and Grants Receivable

As of June 30, 2023, contributors to OSC have unconditionally promised to give the following amounts:

Pledges receivable:	
Receivable in less than one year	\$ 461,975
Receivable in one to five years	1,236,700
Total pledges receivable	1,698,675
Less: allowance for uncollectible accounts	(276)
Discounts to net present value	(156,497)
Net pledges receivable	\$ 1,541,902
	(Continue

(Continued)

Notes to Financial Statements

(3) Pledges and Grants Receivable (Continued)

Grants receivable:	
Orange County Tourism Development Tax Grant	\$ 3,161,966
ONR Mobile Flight Lab	66,158
United Arts – General Operating Support	135,752
Orange County – Cultural Tourism	77,500
Other	4,170
Total contributions and grants receivable	\$ 3,445,546

Unconditional promises to give, receivable in more than one year, are discounted to net present value using an interest rate of 4%. The discount will be recognized as contribution income as the discount is amortized using an effective yield over the duration of the pledge.

(4) Property, Equipment and Exhibits

The following is a summary of the components of property, equipment and exhibits which are stated at cost when purchased or at estimated fair market value at the date of donation. Depreciation is computed on a straight-line method over their estimated useful lives:

			Accumulated	Accumulated		
	Useful Life	Cost	Depreciation	Net		
Exhibits	5-24 years	\$ 9,715,460	(7,664,200)	2,051,260		
Parking garage and pedestrian bridge	40 - 50 years	3,640,615	(2,106,981)	1,533,634		
Furniture, equipment and vehicles	3-10 years	2,917,268	(2,391,680)	525,588		
Leasehold improvements	5-20 years	8,619,363	(4,149,827)	4,469,536		
Work-in-process	5-24 years	8,928,839	<u> </u>	8,928,839		
		\$ 33,821,545	(16,312,688)	17,508,857		

Significant additions to property, equipment and exhibits placed in service during the year ended June 30, 2023, included the following:

New exhibit pieces	\$ 178,788
Technology & hardware upgrades	74,878
Minor asset additions \$25,000 or less, total	9,490
Building improvements	107,654
Elevator refurbishment	228,666
Cargo van	107,910
Garage and bridge improvements	102,382
Works-in-process	4,026,809
	\$ 4,836,577

Work-in-process represents mainly the design and construction costs for the renovation and expansion of the *NatureWorks* exhibit into a new nature and environment exhibit titled *Life* for \$8,573,936.

Notes to Financial Statements

(4) Property, Equipment and Exhibits (Continued)

Tri Party Agreement Information

In 1993, OSC had entered into a Community Educational Facility Funding, Construction, Lease, Operation and Maintenance Agreement (the "*Tri-Party Agreement*") with the School Board of Orange County and the City of Orlando for the operation and funding of the total cost of designing and constructing a new regional science center (the "*Project*"). The total capital campaign of \$48 million was comprised of \$32 million of public funds and \$16 million of private contributions. The Tri-Party Agreement was required in order for the Project to qualify for \$16 million in Public Education Capital Outlay (PECO) funds that were awarded to the School Board of Orange County from the State of Florida's Department of Education. Under the terms of the Tri-Party Agreement, OSC solicited and secured matching funds from local government sources of \$16,000,000 and, in June 1997, transferred to the City of Orlando assets totaling \$32 million. These included the construction costs of the new science center building and a pro-rated share of exhibits, furnishings, and equipment. This transfer was made because the City of Orlando owns the science center facility under the terms of the Tri-Party Agreement.

As of December 15, 1996, the completion date of the facility, and for a term of 50 years ending December 14, 2046, the City of Orlando granted the School Board of Orange County a lease for use of the facility for the sum of \$10, which was paid and acknowledged. The School Board of Orange County then granted the Orlando Science Center an exclusive license for use of the facility for the same term for the sum of \$10 which was paid and acknowledged.

Annually on January 1, the School Board of Orange County pays \$1 to the City of Orlando for rent of the facility. Annually on January 1, Orlando Science Center pays \$1 to the School Board of Orange County as a license fee for use of the facility.

(5) Line of Credit

OSC has a line of credit agreement in order to finance operational needs and construction costs of new exhibit areas. Under the agreement, OSC may borrow up to \$1,200,000 through March 2024 at the 1-month BSBY rate plus 1.50% (6.72% at June 30, 2023). This line of credit is secured by certain assets of OSC. The outstanding balance on the line of credit agreement as of June 30, 2023, was \$0.

(6) Note Payable - Capital Project

On December 16, 2009, OSC financed a portion of the Green building project with a \$1,200,000 loan from the City of Orlando. The loan was payable over ten years and had two payments annually of \$100,000 each, including interest at a rate of 4.75%. Also included in the payments of \$100,000 each was \$22,754 to be placed in a "Renewal and Replacement" account for OSC. As long as OSC made its principal, interest, and renewal and replacement payments on time, the City of Orlando also deposited the interest portion of each loan payment in the "Renewal and Replacement" account. Therefore, the interest was recorded as contribution revenue and interest

Notes to Financial Statements

(6) Note Payable - Capital Project (Continued)

expense in the accompanying statements of activities. As of June 30, 2023, the balance of \$135,917 had been received, leaving an ending balance of \$0.

Effective June 15, 2015, the City of Orlando moved to forgive the outstanding loan balance. The remaining unpaid balance of \$675,913 that was forgiven was recorded as contributed revenue.

(7) Financial Assets and Liquidity

Financial assets available for general expenditure, that is, without donor or contractual restrictions limiting their use, within one year of the date of the statement of financial position, are comprised of the following as of June 30, 2023:

Financial assets:	
Cash	\$ 5,075,552
Grants receivable	3,445,546
Pledges receivable	1,541,902
Prepaid Expenses	399,192
Accounts Receivable	521,381
Endowment fund investments	2,632,788
Total financial assets	13,616,361
Less those unavailable for general expenditure within one year, due	
to:	
Contractual or donor-imposed restrictions:	
Endowment funds	(1,482,991)
Funds restricted by donors through time or purpose restrictions	(3,445,546)
Internal designations	(2,973,611)
Financial assets available to meet cash needs for general	
expenditures within one year	\$ 5,714,213

OSC receives approximately two-thirds of its annual operating revenue through daily sales of admission fees, membership fees, and educational programming fees such as school field trips and offsite programming. Accordingly, OSC does not accumulate large surpluses of operating cash throughout the year and typically retains cash balances of 30 days of general operating expenses which average \$950,000. Operating cash is held in demand deposit accounts and an operating reserve account which is used to cover seasonal fluctuations in fee collections. A portion of contributions and grants carries donor restrictions. Because a donor's restriction requires resources to be used in a particular manner or in a future period, OSC must maintain sufficient resources to meet those commitments to donors. Thus, certain financial assets may not be available for general expenditure within one year. As part of liquidity management, OSC has a practice to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. In the event of an unanticipated liquidity need, OSC could draw upon a \$1.2 million operating line of credit (as further discussed in Note 5). In addition, OSC has \$3,073,611 of internally designated funds which are available, with appropriate internal approval, for general expenditures.

Notes to Financial Statements

(8) Retirement Plan

OSC maintains a 403(b) Plan. Under the terms of the Plan, employees who work a consistent schedule of 30 hours per week for a minimum period of twelve months, aggregating at least 1,000 hours during a plan year, are eligible for employer matching in the Plan. OSC matches 100% of the first 3% of employee contributions and 50% of the next 2% of employee contributions. For the years ended June 30, 2023 and 2022, OSC's contributions to the Plan were \$148,427 and \$118,450, respectively.

(9) Food Service and Museum Store Agreements

OSC has an Operating Agreement with a company, Event Network, Inc., to operate its museum store. In August 2014, the Agreement was extended for an additional 10-year period ending in September 2024 with a five-year renewal term unless notice is given at least 180 days prior to the conclusion of the initial term.

OSC has a Concession Agreement with 4R Restaurant Group, LLC to operate the museum restaurant. Under the terms of the Agreement, OSC receives a commission based on gross sales. The term of the agreement is 5 years commencing September 1, 2020.

During the year ended June 30, 2023, OSC received commissions totaling \$183,258 compared to \$172,341 in 2022 associated with these agreements.

(10) Net Assets with Donor Restrictions

Net assets with donor restrictions at June 30, 2023, are restricted for the following purposes:

Comprehensive campaign	\$ 16,901,207
Endowment – perpetual and unexpended appreciation	1,122,992
Wright Flyer Wing & Apollo 11 Patch	93,500
Pledges receivable for periods after June 30, 2023	1,846
Educational & community programs	246,250
	\$ 18,365,795

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To the Board of Directors

Orlando Science Center, Inc.

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Orlando Science Center, Inc., which comprise the statement of financial position as of June 30, 2023, and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 10, 2023.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Orlando Science Center, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Orlando Science Center, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Orlando Science Center, Inc.'s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the organization's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Orlando Science Center, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Brandan Lanman Orlando Science Center

Re: Orlando Science Center – Orlando, FL

Architectural Addition Feasibility

Dear Brandan:

Please find detailed below our analysis and recommendations relating to the architectural feasibility of enclosing the fourth-floor terrace of the Orlando Science Center, located at 777 E Princeton St, Orlando, FL 32803.

PROJECT DESCRIPTION AND INFORMATION

We have conducted review and analysis of two options for the building remodel.

Option One: Enclose the existing exterior terrace on the fourth floor. On the roof of the newly enclosed space a new terrace will be constructed on the sixth floor that is the same size as the original and connects to the current sixth floor terrace accessed from the observatory. The fourth floor terrace will be enclosed with a curtain wall glazing system to match the glazing on the floors below. The intent of this option is to use the new sixth-floor terrace for purposes similar to the current use of the fourth-floor terrace, and to use the newly enclosed fourth-floor space for either exhibit space.

Option Two: Enclose the existing exterior terrace on the fourth floor. However, instead of extending a terrace out to the edge of the building as in Option One, a new roof will be constructed at the sixth-floor level. The existing sixth floor terrace will be extended from its current location out to the column line that supports the existing fifth floor terrace perimeter. The intent of this option is to provide a smaller sixth floor terrace for similar purposes as the current fourth floor terrace, while the newly enclosed fourth floor space will be used for exhibit space. The proposed construction of the roof is outlined in the feasibility findings for Option two below.

FEASIBILITY FINDINGS

Occupant load and area analysis:

4th floor: Terrace occupant load (as permitted) 6,500 SF; 400 occupants

4th floor total 31,901 SF (32,496 NSF) 1,551 occupants, includes terrace occupant load.

Per 2023 FBC, Occ. Load for assembly space w/ out fixed seating is 15 net / SF meaning the occupant load would be increased to 434, give or take, depending upon the exact configuration of the space and fixed elements such as the structure.

The roofing of the level 4 terrace floor, as well as the existing roof drains, will need to be removed to install an appropriately leveled floor for use as an interior exhibit space by museum guests. The wall finishes of the current terrace area are exterior systems and could either remain or be replaced. However, in either case, portions of the existing finishes will need to be removed to attach the new structure to support the modifications. The remaining areas may either be encapsulated in a new wall assembly or removed and replaced with an interior finish wall system such as metal stud framing and gypsum wallboard. The doors that separate the current museum interior from the exterior terrace, will be replaced with interior doors that have flush transitions at the floor. However these doors will form a separation between the multi-level circulation space and the newly enclosed atrium. It is possible the path of egress could be re-configured to partially use a portion of this area or this relationship between the interior high-volume circulation space and the new enclosed space could be opened up in some way, but the current configuration lends itself to efficient egress from the 4th floor as well as separation between the circulation space and the newly enclosed volume. It is understood there is existing elevator access to the 4th and 6th floors adequate to serve the proposed scope

from the perspective of emergency egress. However, based upon the egress capacity of the enlarged terrace on the 6th floor, and the number of guests an event on the proposed terrace may accommodate, the existing elevator may be insufficient to adequately serve the needs of such as event, and there is no other 'public access' to that level. Therefore, if this option is selected it may be worthwhile to explore options for upgrading the interior of the existing stairwells or adding / revising stair access between level 4 and 6. There are a total of 41 water closets in the building, 18 urinals, and 54 lavatories as designed for 5,150 occupants. Current plumbing code requires 11 mens water closets, 34 womens water closets, 10 urinals, and 26 lavatories. It is reasonable to rely in part on surplus restroom facilities to meet code required fixture counts. However, the 6th level only includes two single restrooms, and the other restrooms are not convenient to the 6th floor. Additional restrooms on the 6th level would require another addition to accommodate the space, and this has not been included in this feasibility study.

Option One:

The 4th floor occupant load will not change other than updated as required by current code, increasing the load for this area to 434, subject to minor revision based on detailed layout. The egress configuration will not require change. Because the building is fully fire-sprinklered, the required egress width is 44" at each of two required stairs and 33" at each of two required doors. The narrowest doors on the 4th floor in the path of egress travel are both 34" clear. Stair #2 has a clear width of 42" (egress plans note a 48" egress width and 120 occupant egress capacity) and stair #6 has a clear width of 63" (egress plans note an egress width of 56" and occupant exiting capacity of 150). Note: exiting from the 4th floor terrace (space to be enclosed) currently occurs at the east and west ends of the terrace and leads directly to stairs 2 and 6. The stairs do not re-enter the building at the atrium. The restrooms on the 4th floor and below are existing and could be considered to be adequate under the Florida Existing Building Code. However, if 2023 FBC requirements are required to be applied to the addition or are evaluated on a per floor basis, they are inadequate to serve the building, and the 4th floor restrooms do not meet the code-based needs of the 4th floor independently.

Adding a full terrace covering the area of the existing 4th floor terrace and adjoining it to the existing 6th floor terrace / walkway will add / convert approx. 8,700 SF of space into space to be used for events. As such, it will be classified as Assembly occupancy with three occupant loads possible based upon its use three occupant loads are possible:

- The space is only used for events with tables and chairs. This configuration has an occupant load based upon 15 net occupants per SF. The maximum occupant load for the space will be 580 occupants. Once an occupant load of 500 is exceeded, a minimum of three exits are required. Standard 36" doors and the stairwell sizes in existence are sufficient to accommodate this, however, stair 6 would need to access the terrace at level 6.
- *If the intent is to also use the space for seating only events (no tables), the occupant load would be based upon 7 net occupants per SF and would increase to 1,244 occupants. If the occupant load exceeds 1,000 as is described in this option, a fourth exit needs to be provided, meaning another stairwell would need to be extended to the rooftop and exit access provided to it from the new 6th floor terrace. The total egress width required also would become problematic, because the required egress width at each of the doors and stairs would not be met. This would require either another (fourth) existing exit stair access the roof or wider exit stairs with pairs of doors be constructed to replace two of the existing stairs. Alternately, a completely new exit stair tower could be constructed to meet this exit width requirement.
- *If events with few to no chairs are expected to be held, the occupant load would be based upon 5 net occupants per SF load would increase to 1,741 occupants. As described above, if the occupant load exceeds 1,000 as is described in this option, a fourth exit needs to be provided, meaning another stairwell would need to be extended to the rooftop and exit access provided to it from the new 6th floor terrace. The total egress width required also would become problematic, because the required egress width at each of the doors and stairs would not be met. This would require either five total (at the existing width of the exit stairs) be modified to access the roof or wider exit stairs with pairs of doors be constructed to replace two of the existing stairs. Alternately, a completely new exit stair towers could be constructed to meet this exit width requirement.

* Because of the extensive amount of construction required for these two scenarios, we don't recommend using these maximum occupant loads. A sign identifying the maximum occupancy of the space calculated at 15 SF/occupant will satisfy the code requirement.

Due to the structural configuration of the building, it is assumed there will be approx. a 3' elevation change between the existing 6th floor and the new terrace level, requiring stairs and ramps. Alternately the terrace could, at additional expense, be built up to be even with the existing 6th floor, but the structural framing would still sit significantly below, creating a cavity under the terrace floor. Based upon conversations with the structural engineer, this option would reduce the space between the 5th floor and 6th floors terraces, and the 6th floor terrace will be smaller than anticipated. The exit separation distance between the two egress doors accessing the exit stairwells on the 6th floor is approx. 51'; not great enough to allow for a terrace of the proposed size to be constructed. A terrace of this size requires the exit access distance be increased to at least 63'. In addition, as stated above the restroom requirements for an expanded occupant load is not met by the current number of facilities. Based on the anticipated load of the expansion:

Restrooms: The 6th floor of the building currently has one male and one female restroom. A full 6th floor terrace will require the following restrooms at a minimum, depending on the intent of use selected:

- Mens Room: One accessible water closet, one standard water closet, one urinal and two lavatories.
- Womens room: One accessible water closet, four standard closets, and two layatories.

Meeting the requirements of egress AND restroom quantities can be accomplished in the following ways:

- Extend the access corridor to Stair 9, located on the north side of the observatory, which would require an extension of approx. 70'. If constructed close to the elevator, the egress corridor could be extended to the far side of them and both the egress and restroom issues could be addressed. As long as the circulation and accessory space accounts for a minimum of 1,200 SF of the newly added terrace, it could alleviate the need for the third exit.
- Increase the height of Stair 6 to access the new terrace from the 4th floor. If this option is selected, Stair 9 could be left as-is and could attempt to rely on reconfiguration of existing restrooms elsewhere in the building to accommodate the need for additional restroom facilities. It is possible that the restrooms on the sixth floor could be enlarged to a set of small gang restrooms in combination with upgrades to restrooms on other floors. This option would also work adding a larger bank of restrooms to the sixth floor terrace.

Option Two:

As with option one, the 4th floor occupant load will not change other than updated as required by current code, increasing the load for this area to 434, subject to minor revision based on detailed layout. Similarly, the egress configuration will not change from the existing conditions. Because the building is fully fire-sprinklered, the required egress width is 44" at each of two required stairs and 33" at each of two required doors. The narrowest doors at the 4th floor in the path of egress are 34" clear. Stair 2 has a clear width of 42" (egress plans note a 48" egress width and 120 occupant egress capacity) and Stair 6, 63" (egress plans note an egress width of 56" and occupant exiting capacity of 150). Note: exiting from the 4th floor terrace (space to be enclosed) currently occurs at the east and west ends of the terrace, directly to stairs 2 and 6 and does not reenter the building at the atrium. The restrooms at the 4th floor and below are existing and could be considered to be adequate under the Florida Existing Building Code, but if the 2023 Florida Building Code requirements are applied to the addition or are evaluated on a per floor basis, they are inadequate to serve the building and the 4th floor restrooms do not meet the code-based needs of the 4th floor independently.

Adding a partial 6th floor terrace above the existing south-facing 5th floor terrace and adjoining it with the existing 6th floor terrace / walkway will add / convert approx. 1,630 SF of exterior area into space to be used for events. As above, it will be classified as Assembly occupancy with three occupant loads possible based upon its use:

- The space is only used for events with tables and chairs. This configuration has an occupant load based upon 15 net occupants per SF. The maximum occupant load for the space will be 109 occupants.
- If the intent is to also use the space for seating only events (no tables), the occupant load would be based upon 7 net occupants per SF and would increase to 233 occupants.

• If events with few to no chairs are expected to be held, the occupant load would be based upon 5 net occupants per SF load would increase to 326 occupants.

The exit separation between the two doors to the 2-hour fire-rated exit stairwells at the 6th floor is approx. 51'; which is adequate for this reconfiguration. The 6th floor of the building currently has one male and one female restroom, which is adequate in quantity to serve the requirement of this increase. However, the existing restrooms, if not currently in compliance with Florida Accessibility Code, must be reconfigured, which would likely require enlarging them. Due to the structural configuration of the existing building, it is assumed the new structure will attach to the existing building structure below the existing cantilevered building structure of the 6th floor terrace. This will result in a cavity between the exterior ceiling and the terrace of the new construction at the 6th floor. The gap between the 5th floor terrace and the sixth floor terrace will be smaller than anticipated during preliminary conversations.

The proposed roofing material for the new sloped roof in this option is a standing seam metal roof similar in appearance to the observatory dome, anticipated to have a 12:2 slope. The perimeter of the roof as described in Option 2 requires a gutter and downspouts be installed which need to be plumbed into the storm waste system.

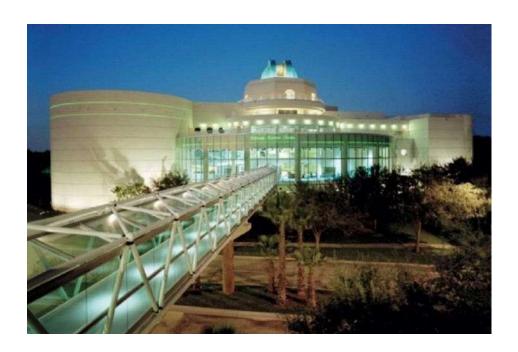

Sincerely,

LITTLE DIVERSIFIED ARCHITECTURAL CONSULTING, INC.

Orlando Science Center

Orlando Science Center Feasibility Study – DRAFT 2

RTM Engineering Consultants
Dalrio Lewis/Morgan Erickson

April 17, 2024

777 E Princeton St Orlando, Florida 32803

EXECUTIVE SUMMARY

The feasibility of roof drain modifications has been thoroughly examined, focusing on extending the sixth-floor terrace and ensuring adequate storm drainage. Two options are considered, adhering to Florida Plumbing Code standards. Storm pipes are sized according to industry practices.

The analysis segregates roof drains by floor levels. For the fourth floor, existing drains are deemed sufficient. Fifth and sixth-floor drainage involves redirecting water from the terrace. Secondary drainage may require new installations due to expansion.

The HVAC load calculations and equipment evaluations for a proposed building addition were conducted using Carrier's Hourly Analysis Program (HAP v6.1). A block load calculation indicated a cooling load of approximately 51.3 tons and a heating load of 164 MBH.

An updated HVAC load calculation, based on actual building envelope information, is recommended for the design process. The report verifies the capacity of existing chiller system to support the additional load.

For the chiller system, analysis shows a remaining capacity of around 141 tons after considering building diversity and existing equipment capacity. This suggests that the chiller plant can adequately accommodate the building addition.

The heating hot water system relies on a single Lochinvar FTXL boiler and two pumps, with one pump operational at a time. Despite recent replacement, the boiler's capacity is insufficient to meet the building's hot water demand, especially during peak periods. The solar water heating system supplements hot water supply, particularly in summer, but its capacity remains unknown. Analysis indicates a demand of 193 GPM during design day conditions, surpassing the existing boiler's capability. To address this deficit and accommodate future expansion, installing an additional Lochinvar FTX850 boiler connected in parallel is recommended. This addition, along with upgrading pipe diameter to 4", would ensure adequate hot water supply for both current and future needs. Trending parameters over a year is advised to better understand the solar system's impact and optimize system performance.

The electrical loads were analyzed for feasibility of supporting the increased HVAC power requirements. The existing building is supplied with multiple services from the utility, one at 2500A that serves the general power, lighting and equipment, one at 2000A serving the chiller plant, and one at 600A that serves the emergency backed loads.

The service that was evaluated for feasibility is the 2500A serving the general building loads. Asbuilt documentation from 2021 utilized utility company load information to determine actual power used by the building; taking this existing load use and added loads from the new Life Exhibit, the electrical load requirement of the building is approximately 1150A being utilized from the 2500A service provided by the utility. RTM recommends compiling a report of the last 12

months of utility information to verify the most recent load levels. However it is determined that the building can support the proposed added HVAC loads.

To serve the proposed exhibit space on the fourth floor the existing electrical infrastructure was evaluated. A new 480V/277V panel will need to be installed to support the added HVAC loads. There is no existing 480V infrastructure able to support these loads, so a new panel will be required and a connection to the main switchboard on level 1. To serve the general lighting and power loads there is an existing 120/208V distribution board that based on as-built documentation has the capacity to serve the new exhibit space. However, it is recommended that a 30 day meter be placed on this panel to verify the capacity is available.

The existing lighting controls system is at capacity and has no room for additional. The existing system has been discontinued by the manufacturer and is not able to be expanded on. A new lighting control panel to serve the new exhibit space is recommended.

EXISTING CONDITIONS

The existing conditions are based on the original design documents dated 12/23/1994. A preliminary site walk was performed on 04/12/2024 by RTM.

PLUMBING

STORM DRAINAGE

Feasibility of roof drain modifications has been analyzed based on the following two options:

- 1. Extending sixth floor terrace to the extents of fifth floor wall (shown below in grey).
- 2. Extending sixth floor terrace to the extents of fourth wall (shown below in pink.

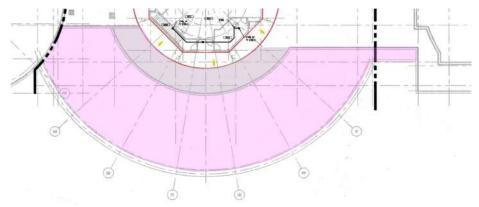

Figure 1 - Terrace Expansion

Storm drainage will be required for all flat roofs and terraces. Stormwater will be routed and collected by a civil structure. A secondary drainage system is required for this building. This system shall be discharged in a safe location above grade. All storm drainage sizing will be based on 5 inches per hour rainfall rate per Florida Plumbing Code (Figure 1106.1).

Storm drain pipes shall be sized in accordance to the Florida Plumbing Code Table 1106.2 as indicated in Fig. 2 below. Sizing is based on industry practice of sloping horizontal piping at 1/8" per foot.

TABLE 1106.2 STORM DRAIN PIPE SIZING							
PIPE SIZE (inches)	CAPACITY (gpm)						
	VEDELGAL	SLOPE OF HORIZONTAL DRAIN					
	DRAIN	1/ ₁₆ inch per foot	1/8 inch per foot	1/4 inch per foot	1/2 inch per foot		
2	34	15	22	31	44		
3	87	39	55	79	111		
4	180	81	115	163	231		
5	311	117	165	234	331		
6	538	243	344	487	689		
8	1,117	505	714	1,010	1,429		
10	2,050	927	1,311	1,855	2,623		
12	3,272	1,480	2,093	2,960	4,187		
15	5.543	2 508	3.546	5.016	7.093		

For SI:1 inch = 25.4 mm, 1 foot = 304.8 mm, 1 gallon per minute = 3.785 L/m.

Figure 2 - Storm Drain Pipe Sizing

All storm piping inside buildings shall be no-hub cast iron with heavy duty couplings and stainless steel bands above grade.

The roof drain analysis will be segregated based on current floor levels and analyzed for adequacy.

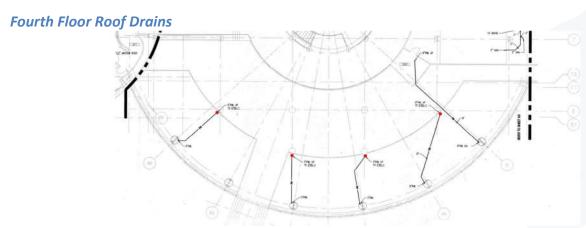

Figure 3 - Third Floor Clg Storm Drain Locations

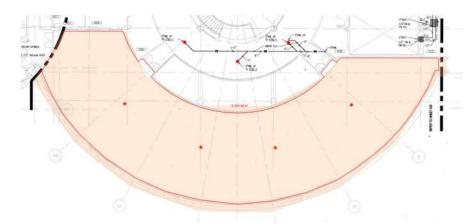

Figure 4 - Fourth Floor Roof Drain Locations

The fourth-floor roof level is drained by five (5) roof drains:

- (2) 6" drains
- (2) 5" drains
- (1) 8" drain

The storm drains are located centrally along the roof and are piped along interior columns down to below grade, at which point they are routed to the exterior of the building to civil structure.

According to area storm calculations performed by RTM, ~400 gpm of drainage flow is required. The total drainage flow allowable for storm drain in accordance with the drains provided is 1732gpm.

RTM believes that storm drainage for fourth floor is adequately sized.

Fifth and Sixth Floor Roof Drains

Fifth-floor roof drainage is analyzed with the sixth-floor terrace. This is because the sixth floor terrace was designed to drain all the water off unto the fifth floor roof.

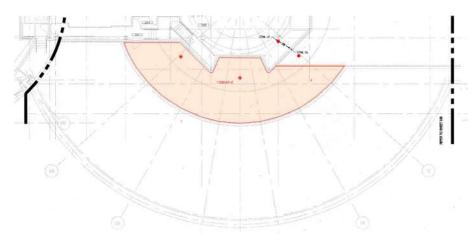

Figure 5 - Fifth Floor Roof Drain Locations

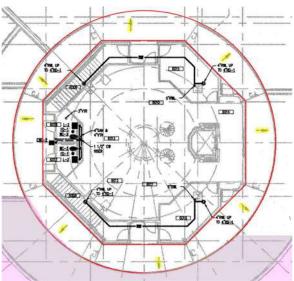

Figure 6 - Sixth Floor Roof Drain Locations

The area of roof encapsulated by the proposed scope of work is drained by two roof drains:

- (1) 4" drains
- (1) 5" drains

According to area storm calculations performed by RTM, ~150 gpm of drainage flow is required. The total drainage flow allowable for storm drain in accordance with the drains provided is 280gpm.

RTM believes that storm drainage for fourth floor is adequately sized.

Secondary (Emergency) Drainage

The Orlando Science Center does have secondary (emergency) drains, but it is tied into the primary piping in the area of work. Based on analysis of the roof sloping and structure, it is understood that the perimeter of the fourth floor level does create a containment. The extents of the expansion will require new internal or external emergency drains.

Restroom Addition (Level 6 Option 1)

This option requires a new restroom addition. The added plumbing fixtures are as follows:

- (8) Flush Valve Water Closets
- (2) Urinals
- (6) Lavatories

This restroom addition will require a new **2**" cold water connection and **4**" sanitary connection. A new 2" cold water will be required to be connected from the booster pump on level 1 to the new restrooms on level 6. The existing 4" sanitary connection in fifth floor ceiling will be utilized for new restroom sanitary connection.

MECHANICAL

HVAC ANALYSIS

This following section will describe basic input methods used for the heat load analysis:

Outdoor Design Conditions

Summer Design Condition (1%) for AHUs with 50% or less outside air

Dry Bulb 85.2°F Mean Coincident Wet Bulb 64.6°F

Winter Design Condition (99.6%)

Dry Bulb 39°F

Indoor Design Conditions

Summer Design Condition (0.4%)

Dry Bulb 75°F

Relative Humidity 40%-60%

Winter Design Condition (99.6%)

Dry Bulb 70°F

Building Envelope

Building envelope will comply with 2023 Florida Energy Conservation Code prescriptive requirements for roofs, walls and windows unless shown otherwise by total energy calculations. The Orlando Science Center falls within Zone 2A, as per Florida Energy Efficiency Code.

Occupancy densities are based on 2023 Florida Mechanical Code – Table 403.3.1.1 which also includes the mechanical ventilation rates. According to this table, the proposed expansion is as follows:

- Occupancy Classification Museums/Galleries
- Occupancy Density #/1000ft² 40 people/1000 ft²
- People Outdoor Airflow Rate 40 CFM/Person
- Area Outdoor Airflow Rate 0.06 CFM/ft²

Assumptions/Results

The following assumptions were made:

- The actual design of the building is unknown at this time. The proposed addition is intended to be an open exhibit area.
- The exterior wall perimeter is assumed to be all glazing (See Fig 7 below).
- The fifth floor will include a service corridor area not intended to be used for public access.

• One chilled and heating hot water single zone variable air volume systems will be used to condition the space.

Figure 7 - HVAC Modelling

A block load calculation was performed using Carrier's Hourly Analysis Program (HAP v6.1), with a summary of the load analysis is included in Appendix 1. An updated HVAC load calculation, based on actual building envelope information, will need to be completed during the design process. According to the load analysis, approximately **51.3 tons** of cooling load and **164MBH** of heating load are required for the proposed addition. An HVAC equipment selection based on this load analysis is provided in Appendix 2.

To verify the chiller load capacity, the existing design documents were analyzed, assuming a building diversity of 70% from peak load. Table 1 below provides a summary of the chiller load evaluation.

Table 1 - Chiller Load Evaluation

CHILLER LOAD EVALUATION									
Space Name	Capacity (Tons)	Flow Rate (GPM)							
RTU-1	507.5	1210.8							
RTU-2	47.3	71							
AHU-1-1	37.2	56							
AHU-1-2	37.2	56							
AHU-1-3	10.7	16

Building Expansion	141	544
Required Building		
Expansion Capacity	51.3	123.11
Maximum flowrate of		
10"Chilled Water Piping		~2000gpm@8fps

Based on a building diversity of 70% and the total capacity of all chilled water air handling units and fan coil units in the building, the remaining capacity for building capacity is approximately 141 tons. According to conversations held between RTM and OSC, two chillers are typically activated during peak summer months when the chilled water temperature exceeds 56F. With around 51.3 tons estimated to be added to the building, the chiller plant if of adequate capacity to support the building addition.

To verify the boiler load capacity, a similar analysis was done utilizing the existing design documents, assuming a building diversity of 70% from peak load. Table 2 below provides a summary of the boiler load evaluation.

Table 2 - Boiler Load Evaluation

The heating hot water system is served by a single Lochinvar FTXL boiler and two pumps, with only one operational at any given time, located in the RTU-1 penthouse. Recently replaced, the boiler maintains an inlet temperature of 125°F and an outlet temperature of 135°F, according to facilities management records. Additionally, a solar water heating system complements the hot water supply, primarily active during summer months, thereby reducing reliance on boiler activation. However, the exact capacity of the solar heating system remains unspecified. During site assessment, the boiler was operating at 60% of its total operational capacity. Unfortunately, data on the hot water coils serving air terminal units was unavailable at the time of assessment.

It's estimated that each terminal unit hot water reheat coil requires one gallon per minute (gpm) for analysis purposes, resulting in an approximate building demand of 193 GPM during design day conditions after applying a 70% diversity factor. The existing Lochinvar boiler, rated for 717MBH@AHRI conditions, lacks the capacity to sufficiently supply the existing building. Notably, the existing boiler capacity excludes any additional heat input from the solar system, which may vary depending on the time of year and cloud cover. To evaluate the solar system's impact on the heating hot water system, RTM recommends trending the following parameters over a one-year period:

Hot Water Supply Temperature Hot Water Return Temperature Hot Water GPM Boiler Operational Percentage

To address the building deficit and accommodate new expansion, installing an additional Lochinvar FTX850 boiler of similar size, connected in parallel to the existing one, may be necessary. This addition would require both existing pumps to operate in a lead-lag configuration, thereby negating the current N+1 setup. Additionally, increasing the existing pipe diameter from 3" to a minimum of 4" within the RTU-1 penthouse is necessary. The heating hot water system for the building expansion's air handling unit should be directly connected to the hot water main in the RTU-1 penthouse.

Electrical

Summary

The existing building is served by three feeds from the utility company. A 480V/3PH/2500A feed, this serves the general lighting, power and HVAC loads. This service has a main switch board, located in first level main electrical room 1047. The second utility service is 480V/3PH/2000A, this service is dedicated for the Chillers that are installed and serve the HVAC for the building. The third service provided by the utility is 480V/3PH/600A, this provides the normal power feed for the emergency systems across the building. Emergency services are provided by a 350kVA/480V/3PH generator located on site.

General Recommendations

Based on latest renovation drawings (Life Exhibit) electrical load on the building is estimated at 1157 Amps. It is recommended that one year of electrical utility bills are complied to determine the maximum peak demand, per NEC 220.87. This exhibit will establish maximum demand, and can be added to the calculated load from the engineering drawings for the recent Life Exhibit addition to verify electrical capacity on the building is sufficient to support the proposed expansion.

The electrical room on the fourth floor (Room4039) has been evaluated for use for the building expansion. Existing distribution panel 3DP/D appears to have capacity to serve the proposed expansion, however load information for all panels is not available, RTM recommendation is to run 30 day meter on this panel feed to determine total load use and available capacity.

Proposed Upgrades

Proposed building expansion of providing enclosed exhibit space in place of the existing fourth floor terrace. Existing electrical room 4039 has several 120V/208V panels but all have no existing circuit capacity for additional loads. Also in electrical room 4039 is distribution panel 3DP/D (120V/208V/3PH/600A). This panel has existing circuit breaker space that RTM recommends utilizing to provide a new 120V/208V panel, recommended circuit panel size to be minimum 225A. Final panel specifications should be evaluated once exhibit specific loads have been determined.

Proposed mechanical equipment is to be provided at 480V/3PH. Current capacity of this voltage on the upper floors is limited. A new 480V/3PH panel will be required to be installed. This panel shall be supplied from the main switchboard (MSB1) located in the first floor main electrical room. A recommended minimum 250A panel should be installed to support added HVAC loads. Final panel specifications should be provided per final mechanical engineer design.

The building has an existing lighting controls system, Macro Electronics, this line of lighting controls has been discontinues by the manufacturer. The existing lighting control panel located in the Fourth Floor electrical room is at capacity and does not have space available for any added

controlled circuits for the expanded exhibit space. A new lighting control panel will be required to be installed. The proposed power will come from the new 120V/208V panel as proposed above. New lighting control panel can be located in electrical room 4039. The recommended new lighting control system is ETC Paradigm in order to provide enhanced lighting controls, dependent on the final exhibit design.

Existing emergency lighting on the fourth and fifth floors is served by generator backed panel 3EP/A. Emergency lighting serving the expansion shall be provided from the same panel.

- **Note 1:** Surface convection line items show the combined effects of conductive heat gain to the surface and radiative heat gains absorbed at the surface which are then convected to room air.
- **Note 2:** Lighting, equipment, and people line items include only the direct convective heat gain from the heat source to the room air. The radiative portion of the heat gain is first absorbed by surfaces in the room and then later convected from the surface to the air. Therefore the effect of the radiative portion of the heat gain is found in the surface convection line items.
- **Note 3:** Solar heat gain is absorbed by surfaces in the room, re-radiated to other surfaces, and finally convected from the surfaces to room air. Therefore, the effect of solar heat gain is found in the surface convection line items.

Minimum Recommended Drain Pan Trap Dimensions Shipping Section Component H 3 Chilled Water coil 3.16

Dimensions provided as a courtesy and are recommended minimums only. Daikin is not responsible for supplying or designing drain pan traps and is not responsible for any damage caused by incorrect trap heights. The dimensions listed above should be reviewed and approved by a licensed plumbing professional.

AHRI Certification

Certified by the AHRI Central Station Air-Handling Unit (AHU) Certification Program, which is based on AHRI Standard 430/431. AHRI certified units are subject to rigorous and continuous testing, have performance ratings independently measured and are third-party verified. Certified units may be found in the AHRI Directory at www.ahridirectory.org.

Notes

Standard

1. As a standalone component, unit meets or exceeds requirements of ASHRAE 90.1 - 2007. The approving authority is responsible for compliance of multi - component building systems.

★★★★ Reviewed On 10/11/2022 by Emmy T

We booked the Orlando Science Center (OSC) as our wedding venue for our event on 8/6/2022. Helen, Laura, and Alex were a pleasure to work with from beginning to end! We planned our wedding from out of town, but the OSC team was very flexible, responsive, and easy to work with. They were also willing to let us periodically visit the museum to help visualize decor and table placement. Their detailed planning questionnaire was very helpful in addition to the AllSeated diagram, which enabled us to further visualize the room setup prior to the day of the event. We received numerous compliments from our guests related to the uniqueness of the venue! We loved that we had three unique areas at the venue reserved for our event (ceremony in Our Planet, cocktail our in the Rotunda and beautiful Terrace overlooking Orlando, and reception in Dino Digs). A few of our friends said it was the most kid friendly wedding ever since there were plenty of things around to keep the kiddos entertained! We loved OSC as our wedding venue and if we had to do it all over again, we would definitely choose them every time! Read Less

We couldn't have been happier with how the wedding and reception went at the Orlando Science Center, October '23. Everyone raved about the venue and the fun time they had.

The entire 4th floor was ours for the evening: the Terrace for wedding, Our Planet for cocktails and Dino Digs for the reception. And the Sky Bridge for our send off. Everyone was in awe when they walked into Dino Digs seeing the dinosaurs in a romantic setting with up lighting, candles, music, etc. It was way beyond what we imagined and hoped for. At the end of the evening, we said farewell to our guests on the walkover with lighted party sticks.

Living in Hawaii while planning a wedding was challenging, but from the beginning of our search in 2022 Director Helen gave us a great tour that sealed the deal. We were then assigned to our Coordinator Molly. She stepped in and always answered all our questions and concerns over the several months before the wedding. Alex, our Month/Day of Coordinator was just super fun, creative, and made sure we had everything we needed. From helping with the setup to breaking it down the staff was very helpful and attentive. If any problems developed through the evening, we surely didn't know about it.

Orlando Science Center offers two great Unveils with vendors twice a year which makes it very convenient to touch base with your vendors. If you want a unique wedding setting, you must check out this venue. And believe it or not the price was very affordable. Memories were made that night thanks to the Orlando Science Center.

Attending the Unveil wedding show event as a vendor at the Orlando Science Center for the last few years has been a pleasure! From the moment we arrived, the couples are greeted with warmth and excitement, setting the tone for a truly memorable experience. As a vendor, participating in this event provided us with a platform to connect with countless wonderful couples, each with their own unique love stories.

One of the most rewarding aspects of the event was the opportunity to introduce so many couples to the versatility of the Orlando Science Center as a wedding venue. For those who had never stepped foot inside before it was a joy to see their eyes light up as they explored the unique spaces available for ceremonies, receptions, an everything in between. Many expressed their amazement at the thought of exchanging vows in this unique environment.

Beyond showcasing the venue itself, the wedding show fostered a sense of community among vendors and attendees alike. It was inspiring to see everyone come together with a shared passion for creating magical weddings and lifelong memories. From florists and photographers to caterers and planners, each vendor brought their own unique talents and expertise to the table.

What truly stood out, however, was the genuine connections formed with the couples we had the pleasure of meeting. Whether they were just beginning their planning journey or putting the finishing touches on their big day at the Orlando Science Center, each couple brings excitement to the event.

Participating in the wedding show event at the Orlando Science Center is always an enriching and rewarding experience for Wedding Venue Map in every sense. Not only did it allow us to showcase our services and expertise, but it also provided a platform to connect with countless couples and introduce them to the magic of this unique venue. We are grateful for the opportunity to be a part of such a wonderful event and look forward to helping more couples bring their wedding dreams to life in the future at OSC.
